### IBM TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

000-347: TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

**Practice Exam:** 000-347 Exams

**Exam Number/Code:** 000-347

**Exam Name:** TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

**Questions and Answers:** 118 Q&As

( [IBM certifications II](#) )

Exam : [000-347](#)

IBM certifications II [000-347](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and IBM certifications II product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications II 000-347** examination of original title complete coverage. Just4Exam **000-347 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 000-347**

Exam Name: TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR( IBM certifications II )

Questions and Answers: 118 Q&A

#### **Just4Exam provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-347 Exam.

000-347 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications II product experts, included the current newest 000-347 examination questions.

3. 100% Guarantee to Pass Your IBM certifications II exam and get your IBM certifications II Certification.

All will purchase "000-347 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the IBM certifications II 000-347 tests.

#### **We promised that use Just4Exam Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 000-347 Q&A are more than 96%. All you need to study the whole 000-347 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 000-347 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 000-347 Q&A, absolutely guarantee you interests have no

losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 000-347 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[IBM 000-347](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

000-347

Just4Exam professional provide IBM certifications II 000-347 the newest Q&A, completely covers 000-347 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-347 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Exam Engine Features**

Comprehensive questions and answers about 000-347 exam

000-347 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-347 exam questions updated on regular basis

Same type as the certification exams, 000-347 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-347 exam demo before you decide to buy it in Just4Exam.com

### **Just4Exam Help You Pass Any IT Exam**

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-347

Title : TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

1. What authentication options can be selected by the administrator when creating a new web clipping portlet?

- A. Form-based Authentication
- B. TAI (Trust Association Interceptor)
- C. Client Certificate Authentication
- D. HTTP Basic Authentication

Answer: AD

2. A customer has decided to use WebSphere Portal V5. The customer already has an IBM Directory Server 5.1 based LDAP-Server. The customer wants to enable the already deployed users as WebSphere Portal users. Which of the following statements are TRUE regarding the required integration?

- A. There must be a user named wpsadmin with the password wpsadmin prior to installation.
- B. After portal installation, passwords for wpsadmin and wpsbind should not be changed.
- C. A group named wpsadmins must exist in the directory.
- D. The fully qualified directory path to the users must not contain a "ou=" (organizational unit) entry.

Answer: C

3. When running multiple cluster members in a vertical clustering configuration, what can be done to ensure that there are no port conflicts between cluster members?

- A. Assign Custom Unique Names to the portlets in each cluster member.
- B. Check the Generate Unique HTTP Ports option in the WebSphere Application Server Admin Console.
- C. Edit the port numbers of each member in the web server plug-in.
- D. Check the create replication entry in this server option in the WebSphere Application Server Admin Console.

Answer: B

4. When cloning a portlet using the administrative pages, which of the following is true regarding the data associated with the portlet and portlet application?

- A. The portlet application parameters are copied from the cloned application, but the portlet parameters are left blank since this is a new version of the portlet
- B. The new portlet application parameters and portlet parameters are created from the original portlet.xml as base configuration data for the clone
- C. The portlet application and portlet are cloned, but the parameters are left blank for configuration by the administrator
- D. The portlet application data and the portlet data are duplicated to the clone from the portlet being copied

Answer: D

5. A company decides to use WebSphere Portal in order to provide all employees with a single source of information. The users will be asked once to provide a userid and password in order to reach true single-sign-on for all components. Which of the following components would NOT be able to participate in a single-sign-on?

- A. A POP3-Mailserver
- B. A Telnet-based legacy system that is accessed via an Applet and that shall not be changed
- C. An Apache-HTTP-Server-based information system that uses BASIC-Auth to authenticate and that shall not be changed
- D. A WebSphere Application Server based information system that uses Form-based login, where the Application itself shall not change.

Answer: B

6. Which of the following database scenarios is NOT valid in a horizontal clustering configuration for WebSphere Portal?

- A. One centralized Oracle database for the entire cell.
- B. DB2 database clients on each node.
- C. One centralized Cloudscape database for the entire cell.
- D. One centralized DB2 database for the entire cell.

Answer: C

7. Which of the following is TRUE about the WebSphere Portlet Catalog that is accessible via the Internet?

- A. Portlet technology previews from IBM may be made available through the Portlet Catalog.
- B. The Portlet Catalog is accessible from the Portal itself; therefore, Portlets can be installed directly from the Internet.
- C. The Portlet Catalog is a download site only available to WebSphere Portal customers where any portlet developer can contribute portlets to make them available as-is to any interested party.
- D. Samples of portal pages can be found in the Portlet Catalog.

Answer: A

8. Which of the following statements are TRUE regarding portlet applications?

- A. Each portlet application can contain multiple portlets
- B. The application is inside of a Web Application Archive (WAR) file
- C. Portlet applications are not required since portlets can be deployed by themselves
- D. Only one portlet application can be contained in a Web Application Archive (WAR) file

Answer: AB

9. Considering best production environment practices, which of the following should reside in the de-militarized zone (DMZ)?

- A. WebSphere Application Server and the master repository
- B. HTTP Server and WebSphere Application Server plugin file
- C. WebSphere Portal and xmlaccess.bat
- D. LDAP directory server

Answer: B

10. Which of the following statements is true if a portlet is updated by uninstalling and reinstalling the portlet application?

- A. Since the portlet data is stored in the database based on the portlet name, uninstalling and reinstalling the portlet will maintain the portlet data and user specific configuration
- B. All portlet data including user configuration, saved portlet and portlet application parameters and portlet page placement are deleted and must be reconfigured
- C. User specific configuration data for this portlet will be maintained since it's stored in the WMM database, however, placement of the portlet on pages will have to be reconfigured
- D. Since page layout is maintained through the Manage Pages portlet, the portlet will remain on the page until removed, however, the portlet configuration data will be lost

Answer: B

11. The administrator has installed a portlet from development and placed it on a page called "Human Resources". Employee Dave cannot see the portlet on this page with the other portlets when he logs in, but the other employees in his department can. From the options below, what could be the problem?

- A. The portlet application WAR did not contain the appropriate page information in the portlet.xml file
- B. The portlet was not activated after it was installed
- C. The appropriate access rights for this portlet were never given to Dave
- D. Dave does not have rights to view the Human Resources page

Answer: C

12. In order for portlets to render in parallel, which of the following must be TRUE?

- A. Only the portal must be set to enable parallel portlet rendering.
- B. Only the portlets must be set to enable parallel portlet rendering.
- C. Both the portal and portlet must be set to enable parallel portlet rendering.
- D. WebSphere Application Server must be set to enable parallel portlet rendering.

Answer: C

13. Which one of the following environmental aspects is NOT supported for a development installation of WebSphere Portal using local debugging?

- A. Having 768MB RAM.
- B. Having WebSphere Application Server Fixpack 1.
- C. Having a DHCP-assigned IP address.
- D. Having Microsoft Windows XP.

Answer: C

14. In a production environment, where is the BEST location for the LDAP directory?

- A. The LDAP directory co-resident with WebSphere Portal.
- B. The LDAP directory co-resident with WebSphere Application Server (WAS)
- C. The LDAP directory located on a separate machine from WebSphere Portal.
- D. The LDAP directory co-resident with the HTTP Server.

Answer: C

15. An administrator needs to have a configuration parameter available for all of the portlets in the portlet application

and requires the ability to change them if needed. Currently, he must add the name/value pairs each time the portlet is installed. Where can he instruct the developer to place the parameters in the portlet application to help reduce the time it takes to configure the portlet?

- A. Use the <init-param> in the web.xml
- B. The parameters would have to be programmatically added in the portlet source
- C. Use the <context-param> in the portlet.xml
- D. Portlet application parameters can not be defined before the application is installed

Answer: C

16. In order to configure Search in clustered portal environment, which of the following is the best solution?

- A. Create an index on each node.
- B. Store the documents on a mounted file system.
- C. Create the index on the deployment manager node.
- D. Replicate the index to each cluster member.

Answer: B

17. After Portal installation an administrator needs to configure DB2 as the database. Using the wpsconfig tool, which of the following steps is NOT required?

- A. Export contents of Cloudscape
- B. Edit the wpsconfig.properties file
- C. Run wpsconfig backup-main-cfg-file
- D. Create DB2 databases required for Portal
- E. Run wpsconfig database-transfer-import

Answer: C

18. Which of the following statements is TRUE regarding the PortletSettings configuration object?

- A. Contains configuration parameters for all instances of a concrete portlet
- B. Initialized by the developer and cannot be modified by the administrator
- C. Allows each user to customize their own settings
- D. Available to every portlet in the portlet application

Answer: A

19. In order to make a portlet the source portlet in a cooperative portlet scenario, what must be added to the portlet?

- A. custom JSP tag library
- B. WSDL with custom extensions
- C. portlet parameter name
- D. security.xml

Answer: A

20. Which of the following are TRUE when adding new themes and skins to a clustered Portal environment?

- A. WebSphere Portal's EAR file must be updated in the Deployment Manager.
- B. WebSphere Portal's EAR file must be manually updated on the node.
- C. Updates to the EAR file on the Deployment Manager will be synchronized across the nodes.
- D. Updates to the EAR file on the node will be synchronized across the nodes.
- E. The cluster's master configuration is held by the node agent.

Answer: AC
