### IBM IBM Exam 447 - IBM CommonStore Email Archiving and Discovery

**000-447: IBM Exam 447 - IBM CommonStore Email Archiving and Discovery**

**Practice Exam:** 000-447 Exams

**Exam Number/Code:** 000-447

**Exam Name:** IBM Exam 447 - IBM CommonStore Email Archiving and Discovery

**Questions and Answers:** 122 Q&As

( [IBM certifications I](#) )

Exam : [000-447](#)

IBM certifications I [000-447](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and IBM certifications I product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications I 000-447** examination of original title complete coverage. Just4Exam **000-447 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 000-447**

Exam Name: IBM Exam 447 - IBM CommonStore Email Archiving and Discovery( IBM certifications I )

Questions and Answers: 122 Q&A

#### **Just4Exam provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-447 Exam.

000-447 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications I product experts, included the current newest 000-447 examination questions.

3. 100% Guarantee to Pass Your IBM certifications I exam and get your IBM certifications I Certification.

All will purchase "000-447 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the IBM certifications I 000-447 tests.

#### **We promised that use Just4Exam Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 000-447 Q&A are more than 96%. All you need to study the whole 000-447 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 000-447 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 000-447 Q&A, absolutely guarantee you interests have no

losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 000-447 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[IBM 000-447](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

000-447

Just4Exam professional provide IBM certifications I 000-447 the newest Q&A, completely covers 000-447 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-447 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Exam Engine Features**

Comprehensive questions and answers about 000-447 exam

000-447 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-447 exam questions updated on regular basis

Same type as the certification exams, 000-447 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-447 exam demo before you decide to buy it in Just4Exam.com

### **Just4Exam Help You Pass Any IT Exam**

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-447

Title : IBM Exam 447 - IBM CommonStore Email Archiving and Discovery

1. What is the name of the command to install ArchPro as a Windows service?

- A. archpro install
- B. archpro installservice
- C. arch install service
- D. archservice install

Answer: D

2. How do the CommonStore Server and the CommonStore Tasks communicate with each other?

- A. The CommonStore Server accesses the CommonStore Tasks based on the directory named in the "Transfer Path" parameter.
- B. The CommonStore Server accesses the CommonStore Tasks based on the task host name and TCPIP port number.
- C. The CommonStore Tasks accesses the CommonStore Server based on the directory named in the "Transfer Path" parameter.
- D. The CommonStore Tasks accesses the CommonStore Server based on the server host name and TCPIP port number.

Answer: D

3. What are the four sub-processes of the CommonStore Exchange tasks?

- A. Poller, Crawler, Worker, Committer
- B. Poller, Worker, Authenticator, Committer
- C. Worker, Authenticator, Committer, Crawler
- D. Worker, Authenticator, Poller, Crawler

Answer: A

4. A new desktop application is installed on all desktops in your company. It creates files with the extension \*.new that will most likely be e-mailed among employees. Your CommonStore system is set up for attachment archiving. What should you do?

- A. Add a new MIME type in CM and a new Content type mapping in CommonStore.
- B. Add a new Item Type in CM and a new entry in archint.ini.
- C. Add a new archiving policy in CommonStore.
- D. Modify the document mapping settings in CommonStore.

Answer: A

5. Under which scenario will e-mail messages meet the minimum qualifications for CommonStore Single Instance Storing?

- A. E-mail messages that have already been archived into any of the CommonStore supported archive repositories with an archiving type of Entire and which have not been processed by an external application for digital signatures.
- B. E-mail messages that have already been archived into any of the CommonStore supported archive repositories with any archiving type, which have not been modified, and which have not been processed by an external application for digital signatures.
- C. E-mail messages that have already been archived into any of the CommonStore supported archive repositories with an archiving type of Entire, which have not been modified, and which have not been processed by an external application for digital signatures.
- D. E-mail messages that have already been archived into an IBM Content Manager archive with an archiving type of Entire, which have not been modified, and which have not been processed by an external application for digital signatures.

Answer: D

6. When increasing the number of task workers, which agent on the ArchPro server should be increased to match the same value?

- A. CMAGENTS
- B. CSLDAGENT
- C. CSAGENTS
- D. CSXAGENTS

Answer: A

7. You have a CommonStore policy that archives all e-mail older than 30 days, but the retrievals on the system are very high. It is decided that 30 days is too soon and that all future e-mail should remain on the system 60 days before being archived. What are the correct steps to change this?

- A. Change the Archive Task in the configuration database/folder.
- B. Add a new logical archive to ArchPro and archive all new mail to this logical archive.
- C. Update the Archiving Policy and restart ArchPro.
- D. Update the Archiving Policy and restart the Archival Task.

Answer: D

8. If your company policy requires that the Content Manager password be changed every 90 days, which action must the CommonStore administrator perform after changing the password?

- A. Run CSXTask -p to store the new Content Manager password.

- B. Run ArchPro -p to store the new Content Manager password.
- C. Use notepad to update the Archint.ini file with the new Content Manager password.
- D. Use notepad to update the archint.cfg file with the Content Manager password.

Answer: B

9. Which two statements are true about the CSX Client Component? (Choose two.)

- A. The CSX Client Component allows users to search and retrieve e-mail archived from their personal mailbox.
- B. The CSX Client Component requires the Microsoft Collaborative Data Object to be installed on each Outlook machine.
- C. The CSX Client Component requires the Microsoft Collaborative Data Object to be installed on the CommonStore Server machine.
- D. The CSX Client Component allows an administrative user to search for and place holds on archived e-mail.

Answer: AB

10. A CommonStore solution is designed to support Single Instance Storage. No automatic archiving policies have been defined. A mail user sends an single e-mail to three co-workers. One of the three recipients was addressed as a blind carbon-copy. All three recipients manually archive the entire e-mail in the same format. The sender also archives the e-mail from the sender's Sent folder. How many copies are stored in the archive?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: C

11. To configure the eMail Search application, which archive type must be configured in Archint.ini?

- A. generic multidoc
- B. generic multipart
- C. bundled
- D. generic single part

Answer: C

12. Your company policy is to delete all stubs in employee mailboxes after two years. The actual e-mails will remain in the repository for an additional year. How will the user be able to search for these older e-mails?

- A. There is no way to see older e-mails.
- B. This type of search is in the existing e-mail client.
- C. It will require a small modification to your existing e-mail client.
- D. Use the Tivoli Storage Manager client.

Answer: C

13. Which two statements regarding Single Instance Store (SIS) are true? (Choose two.)

- A. The Single Instance Store Item Type and child attribute must be referenced in the CommonStore Server configuration file.
- B. CommonStore uses two Item Types to store information for Single Instance Store, one for the document itself and one for the SIS hash key.
- C. Once Single Instance Store is configured, CommonStore stores just one copy of each archived document, no matter how it is archived.
- D. The Single Instance Store Child attribute may be shared among Item Types on the same library server.
- E. Once you have enabled Single Instance Store for an Item Type, you may not turn it off.

Answer: AE

14. A company recognizes that its employees will not use manual archiving effectively and has decided that they will implement automatic archiving. Which three areas in the configuration database must be configured? (Choose three.)

- A. Policies

- B. Special Mappings
- C. Database Sets
- D. Scheduled Task
- E. Content Type Mappings

Answer: ACD

15. A customer has a Domino application where all documents of the product information database are replicated to three locations world-wide. How would you set up automatic archiving and retrieval with CSLD?

- A. Automatic archiving is performed in all three locations; retrieval is available just in the headquarters.
- B. Automatic archiving is performed in just in the headquarters; retrieval is available just in the headquarters.
- C. Automatic archiving is performed just in the headquarters; retrieval is available in all three locations.
- D. Automatic archiving is performed in all three locations; retrieval is also available in all three locations.

Answer: C

16. Which two configuration changes are required to provide optimal CommonStore throughput with a Content Manager repository? (Choose two.)

- A. adding more IBM Content Manager agents
- B. adding additional WebSphere application threads
- C. adding more task worker threads
- D. adding additional Content Manager user IDs
- E. adding additional HTTP threads

Answer: AC

17. It is common for various groups within the same organization to have different requirements. These differences can greatly increase the complexity and cost of delivering the required CommonStore solutions. It is advisable to significantly reduce the number of separate policies by using a modular approach with a limited number of variations. How should you determine the two requirements? (Choose two.)

- A. Implement a top-down approach to fulfill major requirements and then review and fulfill minor requirements.
- B. Place all of the requirements in a pile and randomly make a selection.
- C. Prioritize the requirements basic on the delivery cost.
- D. Ask the customer to prioritize the requirements.
- E. Implement major requirements only.

Answer: AD

18. A customer is running Microsoft Exchange 2003. They have 18,000 Outlook 2000/2003 mailboxes with a daily volume of e-mails of approximately 630,000 e-mails. Their IT group supports Windows, Sun Solaris, and are testing Red Hat on Intel. This customer has decided that CommonStore for Exchange, Content Manager, and eMail Search will solve their e-mail archival requirements. Which hardware platform matches their environment and the solution?

- A. CommonStore on Windows 2003 and Content Manager on z-Series
- B. CommonStore on AIX and Content Manager on z-Series
- C. CommonStore on Windows 2003 and Content Manager on Sun
- D. CommonStore on AIX and Content Manager on Sun

Answer: C

19. Which Notes design element determines which logical archive will be used for archival?

- A. Notes view
- B. Notes action
- C. Notes agent
- D. Notes form

Answer: D

20. In the CommonStore for Lotus Domino configuration, where is the name of the Content Manager Item Type stored?

- A. CSLD configuration database
  - B. archint.ini
  - C. archpro.ini
  - D. archint.cfg
- Answer: B
