

## **000-798 IBM certifications II IBM certifications III IBM ibm tivoli monitoring for transaction perf v5.2 implement**

**000-798: ibm tivoli monitoring for transaction perf v5.2 implement**

**Practice Exam:** 000-798 Exams

**Exam Number/Code:** 000-798

**Exam Name:** ibm tivoli monitoring for transaction perf v5.2 implement

**Questions and Answers:** 116 Q&As

( [IBM certifications II IBM certifications III](#) )

IBM certifications II IBM certifications III [000-798](#) Braindumps Q&A are created **Exam : [000-798](#)** by senior IT lecturers in Just4Exam certification Q&A network and IBM certifications II IBM certifications III product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications II IBM certifications III 000-798** examination of original title complete coverage. Just4Exam **000-798 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 000-798**

Exam Name: ibm tivoli monitoring for transaction perf v5.2 implement ( IBM certifications II IBM certifications III )

Questions and Answers: 116 Q&A

### **Just4Exam provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-798 Exam.

000-798 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications II IBM certifications III product experts, included the current newest 000-798 examination questions.

3. 100% Guarantee to Pass Your IBM certifications II IBM certifications III exam and get your IBM certifications II IBM certifications III Certification.

All will purchase "000-798 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the IBM certifications II IBM certifications III 000-798 tests.

### **We promised that use Just4Exam Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 000-798 Q&A are more than 96%. All you need to study the whole 000-798 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 000-798 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC

or VUE test centers Seal. we will refund your full cost of 000-798 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 000-798 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[IBM 000-798](#) Test belongs to one of the IBM certifications II IBM certifications III certified test, if needs to obtain the IBM certifications II IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II IBM certifications III](#) certified topic, in there, you will see all related IBM certifications II IBM certifications III certified subject of examination.

000-798

Just4Exam professional provide IBM certifications II IBM certifications III 000-798 the newest Q&A, completely covers 000-798 test original topic. With our complete IBM certifications II IBM certifications III resources, you will minimize your IBM certifications II IBM certifications III cost and be ready to pass your 000-798 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Exam Engine Features**

Comprehensive questions and answers about 000-798 exam

000-798 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-798 exam questions updated on regular basis

Same type as the certification exams, 000-798 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-798 exam demo before you decide to buy it in Just4Exam.com

### **Just4Exam Help You Pass Any IT Exam**

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-798

Title : IBM Tivoli Monitoring for Transaction Perf V5.2 Implement

1. What is the default port for SSL Agents when installing the Tivoli Monitoring for Transaction Performance (TMTP) Management Server?

- A. 80
- B. 443
- C. 9090
- D. 9446

Answer: D

2. What is the minimum recommended RAM memory required for the Tivoli Monitoring for Transaction Performance (TMTP) V2 Management Server?

- A. 1 GB
- B. 2 GB
- C. 4 GB

D. 500 MB

Answer: B

3. How is a Tivoli Monitoring for Transaction Performance (TMTP) Management Agent on a Windows platform uninstalled?

A. on the Management Agent, run <Product\_installation\_Directory>MA\_uninst52uninstall.sh

B. on the Management Agent, run <Product\_installation\_Directory>MA\_uninst52uninstall.exe

C. stop the Management Agent and remove the <Product\_installation\_Directory>MA subdirectory

D. on the Tivoli Monitoring for Transaction Performance (TMTP) User Interface (UI) Console, go to Work With Agents, check the agent, and select Remove Agent

Answer: B

4. Which WebSphere configuration change occurs after installing the Tivoli Monitoring for Transaction Performance (TMTP) V5.2 Management Server?

A. WebSphere Security is enabled.

B. WebSphere Security is disabled.

C. WebSphere Log Levels are increased.

D. The patch level is upgraded to the required level.

Answer: A

5. Which Tivoli Monitoring for Transaction Performance (TMTP) V5.2 authorization role is required to deploy and configure the J2EE component?

A. admin

B. stiadmin

C. gwadmin

D. j2eeviewer

Answer: A

6. Which two pieces of information are needed to install Tivoli Monitoring for Transaction Performance (TMTP) V5.2 prerequisite WebSphere in a UNIX environment? (Choose two.)

A. TMTP V5.2 media

B. DB2 Admin User ID

C. User ID with root privileges

D. TMTP DB2 database name

E. WebSphere V5.0 media (including the fix pack 5.0.1)

Answer: CE

7. Which two browser settings must be enabled to log on to the Tivoli Monitoring for Transaction Performance (TMTP) V5.2 Management Server User Interface (UI) using an Internet browser? (Choose two.)

A. accept cookies

B. enable Javascript

C. always expand ALT text for images

D. enable third-party browser extensions

E. set manual proxy configuration to point to TMTP Management Server settings

Answer: AB

8. Which protocol provides secure communication between Tivoli Monitoring for Transaction Performance (TMTP) Management Agents and TMTP Management Servers?

A. JMX

B. SSL

C. TCP

D. SOAP

Answer: B

9. When enabling Tivoli Enterprise Console (TEC) forwarding, when TEC is using a fixed port, which value should be set for ServerPort in <MS install directory>/config/eif.conf?

- A. the port number specified for tec\_disp\_rule\_port in .tec\_config on the TEC Server
- B. the port number specified for tec\_recv\_agent\_port in .tec\_config on the TEC Server
- C. the port number specified for tec\_send\_agent\_port in TransPerf.baroc file on the TMTP Management Server
- D. the port number specified for tec\_recv\_agent\_port in TransPerf.baroc on the Tivoli Monitoring for Transaction Performance (TMTP) Management Server

Answer: B

10. When installing a Store and Forward Agent, which action gives a set of Management Agents permission to access the Store and Forward Agent?

- A. specifying the appropriate mask on install dialog
- B. listing the IP addresses that are permitted in the hosts files
- C. listing the IP addresses that are permitted in the deny.hosts files
- D. listing the IP addresses that are permitted in the allow.hosts files

Answer: A

11. Which key and trust file is required to install the Tivoli Monitoring for Transaction Performance (TMTP) V5.2 Management Server in SSL Enabled mode?

- A. ms.jks file
- B. agent.jks file
- C. server.jks file
- D. dmzagent.jks file

Answer: A

12. Which file must be edited to forward events from Tivoli Monitoring for Transaction Performance (TMTP) to SNMP?

- A. on the Management Agent, edit the event.properties file
- B. on the Management Server, edit the tmp.properties file
- C. on the Management Server, edit the event.properties file
- D. on the Store and Forward Agent, edit the tmp.properties file

Answer: B

13. In a DB2 environment, which command performs the backup of the DB2 database containing the Tivoli Monitoring for Transaction Performance (TMTP) data?

- A. db2exp
- B. db2store
- C. db2export
- D. db2backup

Answer: D

14. Which two statements are true about required user Authorization Roles when installing Tivoli Monitoring for Transaction Performance (TMTP) V5.2 Management Agent? (Choose two.)

- A. In UNIX environments, DB2 admin privilege is needed.
- B. In Windows environments, DB2 sa privilege is needed.
- C. In UNIX, the user must have remote execution privilege.
- D. In UNIX environments, the user who installs the product must have root privilege.
- E. In Windows environments, the user who installs the product must have Administrator privilege.

Answer: DE

15. Which files does the Store and Forward Agent use?

- A. ms.jks and ma.jks
- B. key.jsk and sth.jsk

- C. key.kdb and key.sth
- D. dmzagent.jks and dmzagent.kdb

Answer: C

16. What is the final step required to complete the deployment of the J2EE monitoring component?

- A. reboot the Management Server platform
- B. restart the application server running on the Management Agent platform
- C. stop and then restart the WebSphere Application Server (WAS) running on the Management Server platform
- D. stop and then restart the Tivoli Monitoring for Transaction Performance (TMTP) Management Server Console

Answer: B

17. Which Tivoli Monitoring for Transaction Performance (TMTP) component monitors an end-user transaction experience that includes invoking the Java applet with user input?

- A. STI
- B. QoS
- C. J2EE
- D. GenWin

Answer: D

18. Application Response Measurement (ARM) calls are not being received on a Tivoli Monitoring for Transaction Performance (TMTP) V5.2 Management Agent. Which change is performed to best debug this problem?

- A. Edit <MA Installation Directory>/log/log.conf and set tapmagent.level=DEBUG\_MAX, restart the Tivoli Transperf service
- B. Edit <MA Installation Directory>/log/tapmagent-logging.properties and set BWM.trc.level=DEBUG\_MAX, restart the Tivoli Transperf service
- C. Edit <MA Installation Directory>/config/tapmagent-logging.properties and set BWM.trc.level=DEBUG\_MAX, restart the Tivoli Transperf service
- D. Edit <MA Installation Directory>/config/tapmagent-logging.properties and set tapmagent.level=DEBUG\_MAX, restart the Tivoli Transperf service

Answer: D

19. Which three pieces of information are needed to install the STI recording software? (Choose three.)

- A. host name or IP address of the Management Agent platform
- B. host name or IP address of the Management Server platform
- C. port number used by the Management Server for communication
- D. port number used by the Store and Forward platform for communication
- E. type of communication (secure or non-secure) used by the Management Agent for communication
- F. type of communication (secure or non-secure) used by the Management Server for communication

Answer: BCF

20. Which two installations are supported? (Choose two.)

- A. the J2EE monitoring component deployed to the TMTP Management Server
- B. the TMTP Management Server supported by a BEA WebLogic Application Server
- C. the WebSphere Application Server (WAS) and the TMTP Management Server installed on the same platform
- D. the DB2 server and the Tivoli Monitoring for Transaction Performance (TMTP) Management Server installed on separate platforms
- E. the MicroSoft Access database and the Tivoli Monitoring for Transaction Performance (TMTP) Management Server installed on separate platforms

Answer: CD
