000-974: Power Systems Technical Support for i

Practice Exam: 000-974 Exams

Exam Number/Code: 000-974

Exam Name: Power Systems Technical Support for i

Questions and Answers: 89 Q&As

([IBM certifications I](#))

Exam : [000-974](#)

IBM certifications I [000-974](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and IBM certifications I product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications I 000-974** examination of original title complete coverage. Just4Exam **000-974 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-974

Exam Name: Power Systems Technical Support for i(IBM certifications I)

Questions and Answers: 89 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-974 Exam.

000-974 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications I product experts, included the current newest 000-974 examination questions.

3. 100% Guarantee to Pass Your IBM certifications I exam and get your IBM certifications I Certification.

All will purchase "000-974 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam,

And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the IBM certifications I 000-974 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 000-974 Q&A are more than 96%. All you need to study the whole 000-974 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 000-974 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 000-974 Q&A, absolutely guarantee you interests have no losses. (For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 000-974 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[IBM 000-974](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications](#) I certified topic, in there, you will see all related IBM certifications I certified subject of examination.

000-974

Just4Exam professional provide IBM certifications I 000-974 the newest Q&A, completely covers 000-974 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-974 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 000-974 exam

000-974 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-974 exam questions updated on regular basis

Same type as the certification exams, 000-974 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-974 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-974

Title : Power Systems Technical Support for i

1. A customer with a POWER5 525 has 6 drives in the CEC and wants to migrate to a new Power 520. Which of the following is the easiest way to migrate this configuration?

A. Install all 6 drives from the 525 CEC into the Power 520 CEC.

B. Connect both systems to the same HMC. Use the Dedicated Service Tools (DST) Migrate While Active option.

C. Using the FC #5172 SAS conversion cable, migrate all the SCSI drives, as an intact RAID array, to the new machine.

D. Using an HMC and a FC #5095 expansion unit, move the drives from the 525 to the FC #5095 expansion unit. Then connect the FC #5095 expansion unit to the Power 520 mark it as the load source location.

Answer: D

2. Historical performance data can be imported into the Workload Estimator tool from which of the following sources?

A. IBM Director

B. Performance menu

C. System i Navigator

D. PM for Power Systems

Answer: D

3. A customer's nightly processing window must shrink from 4 hours to 2 hours. Which of the following methods will provide information needed to help address this requirement?

- A. Use iDoctor heap analysis to evaluate batch job memory usage.
- B. Turn on Collection Services. Evaluate system changes using this data.
- C. Set up a performance monitor through Management Central and evaluate the resulting performance collections.
- D. Run Work with Active Jobs (WRKACTJOB) with automatic refresh interval. Evaluate I/O performance during the nightly window.

Answer: B

4. A customer has a model 800 running V5R3. They have some internal fixed-function terminal users, some client-server application, and provide web access for their external customers.

A migration to a new model M25 Express with user based IBM i licensing is planned.

Which of the following will estimate the number of entitlements needed on the new system?

- A. Run the RTVORDINF command
- B. Run IBM DSPESTUSR tool on the model 800
- C. Display details on WRKLICINF for 5722-SS1 FC #5050 on the model 800
- D. Use DSPUSRPRF *ALL to an outfile, then run a query to count all enabled user profiles.

Answer: B

5. An IT Director would like a short overview of the migration process from an 810 at V5R4M5 to a JS23 blade. After upgrading to V6R1, which of the following describes the IBM recommended migration process?

- A. The 810 is migrated using normal save and restore procedures and compatible tape drives on the model 810 and the JS23.
- B. A full save of the 810 is performed to virtual tape. The virtual tape image is then copied to VIOS and restored to the JS23 blade.
- C. The BladeCenter is installed with SLIC and base OS. User data is saved to virtual tape on the SAN and reloaded into the JS23 blade.
- D. A full save performed to a virtual DVD. The virtual DVD image is copied to VIOS on the JS23 blade. The V6R1 partition is IPLed from the DVD image and the environment is loaded into the partition.

Answer: D

6. A customer is migrating from a 270 to a one-core Power 520 with V5R4M5 and has the following requirements:
LTO-4 for backups on the new 520

LAN console

One internal modem

Which of the following features provides the correct configuration?

- A. One FC #5736 Tape IOA and one FC #2893 2-line WAN IOA.
- B. One FC #5746 internal tape and one FC #9793 2-line WAN IOA.
- C. One FC #5775 Tape IOA and one FC #2893 IOPIess 2-line WAN IOA.
- D. One FC #5746 internal tape and one FC #2893 IOPIess 2-line WAN IOA.

Answer: D

7. A customer running a model 810 is experiencing application performance issues. They are considering migrating to a new Power Systems server. The PM iSeries reports show all green lights and do not show an upward trend into yellow or red conditions.

Which of the following will provide more accurate performance metrics?

- A. Use the PM400 menu to change the collection interval, use the "refresh" option to resend the data, and rerun the reports.
- B. In System i Navigator, Collection Services, set the PM eServer iSeries trend analysis to ""trend current performance collection,"" and rerun the report.
- C. Use Collection Services to collect performance data. Change the default collection criteria to a short collection period and analyze those collections.
- D. In the PM400 menu, verify that the remote systems location includes the IBM PM iSeries system, use the

"refresh" option to resend the data, and rerun the reports.

Answer: C

8. Which of the following will allow a customer to display and monitor FC #7109 PDU+ energy usage data at various times of the day via Ethernet connection to a PC?

- A. Management Central
- B. Display Power Management (DPM)
- C. Systems Director Navigator for i5/OS
- D. Systems Director Active Energy Manager

Answer: D

9. A Power 520 customer is implementing a new application and requires continuous network connectivity. Which of the following solutions will enable fault-tolerant connection?

- A. Add a second LAN card and team them together using virtual IP and Proxy ARP.
- B. Add a second LAN card and use Network Dispatcher to manage failover functions.
- C. Create a virtual LAN with multiple virtual interfaces in the event of port failure.
- D. Use both ports on the embedded LAN to set up virtual IP interfaces and bind them together

Answer: A

10. What color are the connectors for HSL-1, HSL-2 and 12X?

- A. HSL-1: black, HSL-2: orange, 12X: green
- B. HSL-1: yellow, HSL-2: black, 12X: green
- C. HSL-1: yellow, HSL-2: orange, 12X: black
- D. HSL-1: orange, HSL-2: black, 12X: yellow

Answer: B
