

050-664-(575b) Novell Other Certification

Novell, Inc novell edirectory design and implementation

050-664-(575b): novell edirectory design and implementation

Practice Exam: 050-664-(575b) Exams

Exam Number/Code: 050-664-(575b)

Exam Name: novell edirectory design and implementation

Questions and Answers: 116 Q&As

([Novell Other Certification](#))

Novell Other Certification [050-664-\(575b\)](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Novell Other Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title. **Exam : [050-664-\(575b\)](#)**

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Novell, Inc Novell Other Certification 050-664-(575b)** examination of original title complete coverage. Just4Exam **050-664-(575b) Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 050-664-(575b)

Exam Name: novell edirectory design and implementation(Novell Other Certification)

Questions and Answers: 116 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 050-664-(575b) Exam.

050-664-(575b) simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Novell Other Certification product experts, included the current newest 050-664-(575b) examination questions.

3. 100% Guarantee to Pass Your Novell Other Certification exam and get your Novell Other Certification Certification. All will purchase "050-664-(575b) Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Novell Other Certification 050-664-(575b) tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 050-664-(575b) Q&A are more than 96%. All you need to study the whole 050-664-(575b) Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 050-664-(575b) Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 050-664-(575b) Q&A, absolutely guarantee you

interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 050-664-(575b) Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Novell, Inc 050-664-\(575b\)](#) Test belongs to one of the Novell Other Certification certified test, if needs to obtain the Novell Other Certification certificate, you also need to participate in other related test, the details you may visit the [Novell Other Certification](#) certified topic, in there, you will see all related Novell Other Certification certified subject of examination.

050-664-(575b)

Just4Exam professional provide Novell Other Certification 050-664-(575b) the newest Q&A, completely covers 050-664-(575b) test original topic. With our complete Novell Other Certification resources, you will minimize your Novell Other Certification cost and be ready to pass your 050-664-(575b) tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 050-664-(575b) exam

050-664-(575b) exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

050-664-(575b) exam questions updated on regular basis

Same type as the certification exams, 050-664-(575b) exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 050-664-(575b) exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Novell 050-664-(575b)

Title : Novell Edirectory Design and Implementation

1. What does WAN Traffic Manager control? (Choose 2.)

- A. Events initiated by administrators or users
- B. Server-to-server traffic generated by eDirectory
- C. Server-to-server traffic generated by time synchronization
- D. The amount of eDirectory traffic based on cost of traffic and time of day
- E. Which servers the master replica server synchronizes to by using configured lists

Answer: BD

2. Which statement is true of queue-based printing?

- A. The print server object must be associated with a volume object.
- B. The printer object must be associated with a print server object.
- C. The print queue object must be associated with a print server object.
- D. The print server, print queue, and printer objects must all reside in the same container.
- E. The print server, print queue, and printer objects must all reside in the same container as the corresponding server

object.

Answer: B

3. After you create object naming standards, what should be defined for the attribute standards? (Choose 2.)

- A. Which object types require attributes
- B. Whether the attribute of an object is required
- C. Whether the attribute of an object is purgeable
- D. Whether the attribute of an object is unique from other object attributes
- E. Whether the attribute of an object is a system attribute that is automatically populated by eDirectory

Answer: BE

4. Which replica or replicas contain a complete copy of all object information of a partition?

- A. Master
- B. Master and filtered
- C. Master and read/only
- D. Master and read/write
- E. Master, read/write, and read-only
- F. Master, read/write, and filtered
- G. Master, read/write, read-only, and subordinate reference

Answer: E

5. A secondary server is not synchronized with a single reference time server. During the next polling process, what percent of the time difference does the secondary time server adjust?

- A. 0%
- B. 16%
- C. 25%
- D. 50%
- E. 75%
- F. 100%

Answer: F

6. You have just created an eDirectory tree and installed 3 servers into the tree. The tree has one partition. Server1, Server2, and Server3 were installed into the Corp container. Server2 crashed and you removed it from the tree before you installed additional servers. The additional servers installed in the tree were Server4, Server5, Server6, and Server7. Server4 and Server5 were installed into the Prod container. Server6 and Server7 were installed into the Acct container. The Corp, Prod, and Acct containers are children of the tree root. The servers were placed in the tree in the following order: Server4, Server5, Server6, Server7. You haven't had the chance to manually add replicas to any server. Which servers hold replicas?

- A. Server1 and Server3
- B. Server1, Server3, and Server4
- C. Server1, Server3, Server4, and Server6
- D. Server1, Server3, Server4, and Server5
- E. Server1, Server3, Server6, and Server7
- F. Server1, Server3, Server4, Server5, Server6, and Server7

Answer: B

7. You are getting ready to merge 2 eDirectory trees. What should be done before attempting to merge trees? (Choose 2.)

- A. Back up both eDirectory trees.
- B. Rename the Admin user object in the target tree.
- C. Remove the source server from all replica rings.
- D. Use DSREPAIR to update the schema so it is the same on both servers.
- E. Rename the first level container objects in both trees to be identical.

Answer: AD

8. In which file do you configure time on a Linux server?

- A. ntp.conf
- B. init.conf
- C. time.conf
- D. tsync.conf
- E. clock.conf

Answer: A

9. You have just finished executing a tree merge. Which tasks are left to complete the tree merge process? (Choose 2.)

- A. Correct bindery services commands.
- B. Update workstation configurations.
- C. Delete and re-create volume objects.
- D. Restore the taped backup of the file system.
- E. Verify trustee assignments to the file system.

Answer: AB

10. What does the following WAN Traffic Manager policy control? TCP/IP, NA

- A. Prevents background traffic generated by TCP/IP
- B. Prevents background traffic unless the traffic is generated by TCP/IP
- C. Restricts TCP/IP traffic unless the traffic is in the same TCP/IP network area
- D. Restricts TCP/IP traffic unless the traffic comes from a different TCP/IP network area

Answer: B

11. Which DNS/DHCP object contains resource record sets for DNS root servers?

- A. DNS Zone object
- B. DNS Group object
- C. DNS Locator object
- D. DNS Name Server object
- E. RootSrvrInfo Zone object

Answer: E

12. Examine the exhibit by clicking the Exhibit button.

Shown in the exhibit is a partition and replica table, and a partitioned eDirectory tree. Which servers automatically receive a subordinate reference of the PR partition?

- A. Serv2, Serv5, and Serv6
- B. Serv2, Serv4, and Serv6
- C. Serv3, Serv5, and Serv6
- D. Serv2, Serv3, Serv5, and Serv6
- E. Serv2, Serv3, Serv4, Serv5, and Serv6

Answer: C

13. Your company has 15 sites connected by a WAN link to corporate headquarters. Corporate headquarters has 50 servers and each of the 15 sites has 30 servers. You are implementing a multiple time provider group time synchronization strategy. Which are considerations you should make before implementing this strategy? (Choose 2.)

- A. If possible, create local time providers.
- B. There will be a single point of failure at each location.
- C. You cannot exceed 7 primary time servers in your network.
- D. Make sure each reference server will synchronize with the same external source.
- E. The single reference time synchronization strategy will provide a better strategy for this network structure.

Answer: AD

14. You have completed a tree merge and want to confirm the new tree name by ensuring that all servers in the tree are configured to support the new tree. Which utility will provide you the status of every server in the tree and the name of the tree it is servicing?

- A. DSMMAINT
- B. DSMERGE
- C. DSREPAIR
- D. ConsoleOne
- E. NDS Manager

Answer: B

15. You are the network administrator for your company and are in charge of your company's eDirectory design and implementation project. You have completed the project approach phase of the eDirectory design cycle. Which tasks still need to be completed before you begin the implementation phase? (Choose)

- A. Design the eDirectory tree
- B. Fine-tune the eDirectory design
- C. Determine accessibility needs
- D. Plan a time synchronization strategy
- E. Gather business information related to network design

Answer: AC

16. You are implementing an NDPS printing environment. Where is it recommended to place the NDPS print manager object in the eDirectory tree?

- A. Next to user objects
- B. Next to the NDPS printer object
- C. In the same container where the server object resides
- D. At least one level higher than the printers it manages
- E. In the same container as the user object that has administrative rights to manage it

Answer: D

17. What is a good recommendation to follow when designing partitions for lower layers in the tree?

- A. Create a partition for each container.
- B. Partition the Directory by function regardless of location.
- C. Use organizational divisions and workgroups to define lower-level partitions.
- D. Place all servers, including servers at different locations, in the same partition.
- E. Partition the Directory with more partitions at the top and fewer partitions at lower-levels.

Answer: C

18. In which eDirectory objects do WAN traffic policies reside? (Choose 2.)

- A. The Admin object
- B. The Server object
- C. The LAN Area object
- D. Any container object
- E. The partition root object

Answer: BC

19. What does DSMERGE allow you to do?

- A. Create replicas
- B. Create partitions
- C. Rename the eDirectory tree
- D. Configure time synchronization
- E. Rename objects within the eDirectory tree

Answer: C

20. Begin by clicking the Exhibit button.

Which eDirectory tree upper-layer design does the graph indicate?

- A. Region-based design
- B. Function-based design
- C. Location-based design
- D. Organization-based design
- E. Combination approach design

Answer: E
