Novell, Inc foundations of novell networking:netware 6.5

050-686: foundations of novell networking:netware 6.5

Practice Exam: 050-686 Exams

Exam Number/Code: 050-686

Exam Name: foundations of novell networking:netware 6.5

Questions and Answers: 198 Q&As

([6 CNA 6.5 CNE Novell Other Certification](#))

Exam : [050-686](#)

6 CNA 6.5 CNE Novell Other Certification [050-686](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and 6 CNA 6.5 CNE Novell Other Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Novell, Inc 6 CNA 6.5 CNE Novell Other Certification 050-686** examination of original title complete coverage. Just4Exam **050-686 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 050-686

Exam Name: foundations of novell networking:netware 6.5 (6 CNA 6.5 CNE Novell Other Certification)

Questions and Answers: 198 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 050-686 Exam.

050-686 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the 6 CNA 6.5 CNE Novell Other Certification product experts, included the current newest 050-686 examination questions.

3. 100% Guarantee to Pass Your 6 CNA 6.5 CNE Novell Other Certification exam and get your 6 CNA 6.5 CNE Novell Other Certification Certification.

All will purchase "050-686 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the 6 CNA 6.5 CNE Novell Other Certification 050-686 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 050-686 Q&A are more than 96%. All you need to study the whole 050-686 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 050-686 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC

or VUE test centers Seal. we will refund your full cost of 050-686 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 050-686 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Novell, Inc 050-686](#) Test belongs to one of the 6 CNA 6.5 CNE Novell Other Certification certified test, if needs to obtain the 6 CNA 6.5 CNE Novell Other Certification certificate, you also need to participate in other related test, the details you may visit the [6 CNA 6.5 CNE Novell Other Certification](#) certified topic, in there, you will see all related 6 CNA 6.5 CNE Novell Other Certification certified subject of examination.

050-686

Just4Exam professional provide 6 CNA 6.5 CNE Novell Other Certification 050-686 the newest Q&A, completely covers 050-686 test original topic. With our complete 6 CNA 6.5 CNE Novell Other Certification resources, you will minimize your 6 CNA 6.5 CNE Novell Other Certification cost and be ready to pass your 050-686 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 050-686 exam

050-686 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

050-686 exam questions updated on regular basis

Same type as the certification exams, 050-686 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 050-686 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Novell 050-686

Title : Foundations of Novell Networking:Netware 6.5

1. You're planning the network file system for a NetWare 6.5 server you are going to install. Your server has a mirrored 40 GB SCSI-3 hard disk drive array. On the array, you've decided to create one NSS volume named SYS. In addition to the default operating system directories created when NetWare is installed, you want to create a directory named USERS off the volume root where each user will have his or her home directory. You also want to create a directory named SPOOL off the volume root where print jobs waiting to be printed on the network printer will reside. Finally, you want to create a directory named APPS off the volume root where network-distributed applications will reside. Does this design meet with Novell guidelines?

- A. Yes, all Novell guidelines have been met.
- B. No, NSS doesn't support mirrored drive arrays
- C. No, NSS doesn't support SCSI-3 hard disk drives.
- D. No, the user's home directory should be named HOME.
- E. No, only the NetWare operating system should reside on volume SYS.
- F. No, volume SYS should be a traditional volume on a NetWare 6.5 server.

G. No, the users' home directories should be placed immediately beneath SYS:PUBLIC.

Answer: E

2. Which NetWare loadable module provides the iPrint service on a NetWare 6.5 server?

- A. IPP.NLM
- B. IPRINT.NLM
- C. NPRINT.NLM
- D. IPPSRVR.NLM
- E. PSERVER.NLM
- F. IPRINTSRVR.NLM

Answer: D

3. You've just finished configuring an iPrint system on your NetWare 6.5 server. The server's DNS name is iprint.widget.com. The Manager object is named IPP-Printer in the SLC.WIDGET container. The Broker object is named IPP-Broker and is also in SLC.WIDGET. You've used the Maptool.htm file to configure a map named slcoffice.htm for location-based printing. What URL should you enter in your browser's Address field to test the iPrint map?

- A. <http://iprint.widget.com/slcoffice.htm>
- B. <http://iprint.widget.com/lpp/slcoffice.htm>
- C. <http://iprint.widget.com/lppdocs/Maptool.htm>
- D. <http://iprint.widget.com/iPrint/slcoffice.htm>
- E. <http://iprint.widget.com/lppdocs/slcoffice.htm>
- F. <http://iprint.widget.com/lpp/slcoffice.htm> -b=IPP-Broker.SLC.WIDGET
- G. <http://iprint.widget.com/lppdocs/slcoffice.htm> -m=IPP-Printer.SLC.WIDGET

Answer: E

4. Click the Exhibit button to begin.

Given the explicit right assignments shown, what rights does CGrayson have to the MHoffmann user object?

- A. Supervisor
- B. Browse
- C. Browse, Create
- D. Browse, Create, Delete
- E. Browse, Create, Delete, Rename, Inheritable
- F. Supervisor, Browse, Create, Delete, Rename
- G. Supervisor, Browse, Create, Delete, Rename, Inheritable
- H. CGrayson has no rights to the MHoffmann user object.

Answer: B

5. Which utilities can you use to manage directory and file attributes on a NetWare 6.5 server? (Choose 2.)

- A. ICE
- B. FLAG
- C. iManager
- D. iMonitor
- E. NDS Manager
- F. Remote Manager

Answer: BF

6. Which tasks can be performed with ConsoleOne? (Choose 2.)

- A. Manage licensing.
- B. Assign rights to objects.
- C. Browse very large trees.
- D. Configure NDPS Brokers.
- E. Change the server's IP address.

Answer: BC

7. Which utility can be used to create NSS volumes in NetWare 6.5? (Choose 2.)

- A. NSSMU
- B. iMonitor
- C. NWCONFIG
- D. ConsoleOne
- E. NDS Manager
- F. NetWare Administrator

Answer: AD

8. You're implementing a NetWare 6.5 network for a small business client: Jessica's Bakery. There is only one server in the network. You've named the server BAKERY1 and installed it into an eDirectory tree named JESSICASBAKERY-TREE. You've used a random password generator to create a password for the tree's Admin user. To ease administration, you've located the server next to the Point of Sale system in the customer area of the bakery. You deployed Universal Password on the server. All workstations have Novell Client 4.9 installed on them. You created a NFAP share on the server for the SHARED and the FINANCE directories on the server's DATA volume. Does this configuration meet Novell's security recommendations?

- A. Yes, all Novell security guidelines have been met.
- B. No, the server should be placed in a locked closet or room.
- C. No, you shouldn't use Universal Password with Novell Client version 4.9.
- D. No, you shouldn't use the business name in the server or eDirectory tree names.
- E. No, you shouldn't create NFAP shares for directories containing financial information.
- F. No, you shouldn't use a random password generator for the Admin password. It's easy to hack.

Answer: B

9. Which products does Virtual Office provide web-based access to? (Choose 3.)

- A. eGuide
- B. iFolder
- C. NetStorage
- D. WAN Manager
- E. Remote Manager
- F. Web Search Server

Answer: ABC

10. You're designing the eDirectory tree for your company. Your company is composed of four distinct subsidiary organizations. You decide to create four Organization objects at the root of your tree to represent each. Each subsidiary has its own Vice President who is in charge of the organization. You decide to create a user object for each Vice President in their respective Organization object. Will this design work?

- A. Yes, all eDirectory rules have been observed.
- B. No, user objects can't reside in an Organization object.
- C. No, Organization objects can only reside within Country objects.
- D. No, there can only be one Organization object within a given tree.
- E. No, Organization objects should not be used to represent subsidiaries. Organizational Unit objects should be used instead.

Answer: A

11. Click the Exhibit button to begin.

The user object RTracy is a member of the FlightOps group. This group has been assigned Read, Write, Create, Erase, and File Scan file system rights to the SHARED folder. FLIGHTOPS is a subdirectory of SHARED that contains confidential data. An IRF has been placed on this directory that blocks the Write, Create, Erase, Modify, and Access Control rights. However, user RTracy needs limited access to these files. His object has an explicit rights assignment to FLIGHTOPS for the Write, Modify, and Access Control rights.

What are RTracy's effective rights to the contents of the FLIGHTOPS directory?

- A. Supervisor
- B. Read, File Scan
- C. Read, Write, Modify, Access Control
- D. Read, Write, Create, Erase, File Scan
- E. Read, Write, Modify, File Scan, Access Control
- F. This object has no rights to the directory or its contents.

Answer: E

12. Which web-based services does Virtual Office provide? (Choose)

- A. Chat
- B. Calendar
- C. Bookmarks
- D. Spreadsheet
- E. Word processor
- F. Project management charts

Answer: ABC

13. Which file system attribute indicates that the file has been modified at some point since the last backup operation?

- A. A
- B. H
- C. P
- D. Ci
- E. Dc
- F. Di
- G. Dm
- H. Ds
- I. Ic
- J. Ro
- K. Sh

Answer: A

14. Which describes the role of the Novell Distributed Print Services (NDPS) printer agent?

- A. It downloads the correct print driver to the workstation.
- B. It responds to queries from clients about the status of a print job.
- C. It provides a platform for printer objects that reside on the server.
- D. It allows NDPS clients to send print jobs to printers that are not NDPS-aware.
- E. It redirects print jobs to directory on the server while waiting for the printer to become available.
- F. It takes application-specific data from the application creating the print job and reformats it to work with the printer it is being sent to.

Answer: B

15. You've been asked by management to implement Novell's iFolder product throughout the company. You've installed a new NetWare 6.5 server, named DA28, in the tree to provide iFolder services. The IP address of DA28 is 192.168.1.28. During the server install, you selected the iFolder patterned deployment. You now need to configure iFolder on the server. What URL can you use to access the iFolder Management Console?

- A. <http://192.168.1.28/vo/Admin>
- B. <http://192.168.1.28:8008/Admin>
- C. <http://192.168.1.28/iFolderAdmin>
- D. <http://192.168.1.28/iFolder/Admin>
- E. <http://192.168.1.28:443/iFolder/Admin>
- F. <http://192.168.1.28/iFolderServer/Admin>

G. <http://192.168.1.28:631/iFolderServer/Admin>
H. <http://192.168.1.28/nps/iManager/iFolderAdmin>
Answer: F

16. Your company's business procedures require the use of triplicate forms. To accommodate this, you have secured an older dot-matrix printer to deploy in your network. It doesn't have a network interface. It will be connected directly to one of your server's LPT ports using an IEEE 1284 parallel cable. You use Novell Distributed Print Services (NDPS) to provide print services to your users. This printer doesn't have an embedded printer agent. Can you use it with NDPS?

- A. Yes, all prerequisite requirements have been met.
- B. No, the NDPS manager doesn't support older dot-matrix printers.
- C. No, the NDPS broker is incompatible with the IEEE 1284 standard.
- D. No, NDPS doesn't support printers that don't have an embedded printer agent.
- E. No, a printer agent can't be created for printers that connect to the server with a parallel cable.

Answer: A

17. Which of the following are system files used by DR-DOS? (Choose 3.)

- A. NTLDR
- B. IO.SYS
- C. MSDOS.SYS
- D. IBMBIO.COM
- E. IBMDOS.COM
- F. COMMAND.COM
- G. NTDETECT.COM
- H. PAGEFILE.SYS

Answer: DEF

18. Your company specializes in the production of digital video products. Your company has been recently awarded a very large contract that has a very short deadline. Your NetWare 5 server currently uses a single 80 GB IDE hard disk drive. The new contract will require considerably more hard disk storage. You've purchased and installed a 400 GB RAID5 disk array designed specifically for non-linear video editing. The array came with a diskette containing NetWare drivers. Which file on your server should you edit to load these drivers?

- A. RAID.NCF
- B. SERVER.EXE
- C. CONFIG.SYS
- D. STARTUP.NCF
- E. STARTUP.CFG
- F. STORAGE.NCF
- G. AUTOEXEC.BAT
- H. RAID5 array drivers can only be loaded manually from the server console.

Answer: D

19. Which NSS volume attribute maintains an inventory of all files on the volume that have had their contents changed at some point since the last backup operation?

- A. Backup
- B. Salvage
- C. Migration
- D. Compression
- E. Directory Quotas
- F. Modified File List
- G. User Space Restrictions
- H. Flush Files Immediately on Close

Answer: F

20. Click the Exhibit button to begin.

What element of this file system design violates Novell's recommendations?

- A. The MAIL directory should reside on a volume other than SYS.
- B. The QUEUES directory should be placed on a volume other than DATA.
- C. The USERS directory and subsequent subdirectories should not reside on SYS.
- D. The SYS, DATA, and RESOURCES volume objects should not be placed in the same container.
- E. The REPORTS, PROJECTS, QUEUES, APPS, and CORPAPPS directories shouldn't be split between DATA and RESOURCES.

Answer: C
