

050-704 Novell Other Certification

Novell, Inc Novell Open Enterprise Server for Linux+ZENworks

050-704: Novell Open Enterprise Server for Linux+ZENworks

Practice Exam: 050-704 Exams

Exam Number/Code: 050-704

Exam Name: Novell Open Enterprise Server for Linux+ZENworks

Questions and Answers: 142 Q&As

([Novell Other Certification](#))

Novell Other Certification [050-704](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Novell Other

Exam : [050-704](#)

Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Novell, Inc Novell Other Certification 050-704** examination of original title complete coverage. Just4Exam **050-704 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 050-704

Exam Name: Novell Open Enterprise Server for Linux+ZENworks(Novell Other Certification)

Questions and Answers: 142 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 050-704 Exam.

050-704 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Novell Other Certification product experts, included the current newest 050-704 examination questions.

3. 100% Guarantee to Pass Your Novell Other Certification exam and get your Novell Other Certification Certification. All will purchase "050-704 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Novell Other Certification 050-704 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 050-704 Q&A are more than 96%. All you need to study the whole 050-704 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 050-704 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 050-704 Q&A, absolutely guarantee you interests have no

losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 050-704 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Novell, Inc 050-704](#) Test belongs to one of the Novell Other Certification certified test, if needs to obtain the Novell Other Certification certificate, you also need to participate in other related test, the details you may visit the [Novell Other Certification](#) certified topic, in there, you will see all related Novell Other Certification certified subject of examination.

050-704

Just4Exam professional provide Novell Other Certification 050-704 the newest Q&A, completely covers 050-704 test original topic. With our complete Novell Other Certification resources, you will minimize your Novell Other Certification cost and be ready to pass your 050-704 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 050-704 exam

050-704 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

050-704 exam questions updated on regular basis

Same type as the certification exams, 050-704 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 050-704 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Novell 050-704

Title : Novell Open Enterprise Server for Linux+ZEN works

1. You are working with a customer who wants to implement Novell Open Enterprise Server-Linux (OES Linux) in her network. She needs the OES Linux servers to authenticate users from Windows XP client systems using the Novell Client, to provide network printing, to provide network storage of user files, and to support a Storage Area Network (SAN) using off-the-shelf Ethernet hardware. Which services should be configured on the server to accomplish this? (Choose 2.)

A. AFP

B. NFS

C. FCIP

D. iSCSI

E. Tomcat

F. EtherSAN

G. NetStore

H. NCP Server

I. PostgreSQL

J. Novell Cluster Services

Answer: DH

2. You're setting up an iFolder server in your network that will service 1800 users. The server uses a dual Pentium 4 CPU motherboard and a 500 GB RAID 3 storage array. The server is connected to workstations through a Gigabit twisted-pair Ethernet network. Does this system meet Novell's recommended design guidelines for iFolder?

- A. Yes, all recommendations are met.
- B. No, iFolder is not multiprocessor-enabled.
- C. No, iFolder does not support RAID 3 storage devices.
- D. No, a single iFolder server should serve a maximum of 1000 users.
- E. No, iFolder should be implemented on a fiber-optic Ethernet network.

Answer: D

3. You've installed iFolder on an OES Linux server in your network. You've made some changes to the service and need to restart it. Which shell command will stop the iFolder service?

- A. rcapache2 stop
- B. rcifolderd stop
- C. rcifolder-3d stop
- D. rcnovell-ifolder stop
- E. rcapache2 -ifolder stop

Answer: A

4. What is the largest upload file size supported by iFolder 3.x Web Access?

- A. 1 MB
- B. 4 MB
- C. 8 MB
- D. 10 MB
- E. 16 MB
- F. iFolder 3.x Web Access has no upload file size limit.

Answer: D

5. Which file is used to configure the OpenSSH service on your OES Linux server?

- A. /etc/sshd.conf
- B. /etc/ssh/sshd.conf
- C. /etc/sysconfig/ssh
- D. /etc/ssh/sshd_config
- E. /etc/rc.d/init.d/sshd

Answer: D

6. Which version of eDirectory is installed by default after a NetWare 5.1 server is upgraded to OES NetWare?

- A. eDirectory 8.9
- B. eDirectory 8.8
- C. eDirectory 8.5.7
- D. eDirectory 8.7.3
- E. eDirectory 8.6.5

Answer: D

7. You are implementing NetStorage on an OES Linux server. You need to configure a file access protocol on the server to provide NetStorage users with access to the Linux file system. Which of the following can do this? (Choose 2.)

- A. AFP
- B. NFS
- C. DEC
- D. NSS

- E. NIS
- F. Samba
- G. NetBIOS
- H. NCP Server

Answer: FH

8. When migrating volumes from a NetWare server to an OES Linux server, which are considerations you should keep in mind? (Choose 2.)

- A. Open files on the source volume won't be migrated, by default.
- B. The creation date of the files on your migrated volume will be reset to the current date.
- C. Linux User Management must be disabled on the destination server before starting the migration.
- D. If the source NetWare volume is part of a server cluster and it fails over during the migration, the Server Consolidation utility can continue the migration process using a redundant server in the cluster.
- E. The file ownership attribute is not preserved when migrating NetWare NSS volumes to OES Linux volumes.
- F. You will lose all trustee rights assignments when migrating a traditional NetWare volumes to OES Linux NSS volumes.

Answer: AB

9. You are configuring your OES Linux server to get its time using the NTP protocol from an NTP time provider with an IP address of 200.200.1. You've opened /etc/ntp.conf in a text editor. Which directive will configure your server to get its system time from this provider?

- A. server 10.200.200.1
- B. provider 10.200.200.1
- C. ntp-time 10.200.200.1
- D. ntp-server 10.200.200.1
- E. get-time 10.200.200.1
- F. get server time 10.200.200.1
- G. set time source=10.200.200.1

Answer: A

10. You are working with a customer who wants to implement OES NetWare in her network. Users will connect to the network using Windows XP workstations running the Novell Client. She needs the OES NetWare servers to provide network printing and distributed storage. In addition, the servers must automatically keep older versions of any user file that is deleted or modified in any way. Which services should be configured on the server to accomplish this? (Choose 3.)

- A. DFS
- B. CIFS
- C. iSCSI
- D. MySQL
- E. iPrint
- F. eGuide
- G. Identity Manager
- H. File Edition Manager
- I. Novell Cluster Services
- J. Archive and Version Services

Answer: AEJ

11. You're implementing iFolder 3.1 on an OES Linux server. The iFolder implementation will service 250 users. It uses a dual Xeon CPU motherboard and a 300 GB SCSI RAID 5 array. The server is connected via fiber-optic network cables to your organization's Ethernet network. Your OES Linux server has eDirectory, NSS, and iManager installed. Can iFolder 3.1 be implemented on this system?

- A. No, iFolder 3.1 doesn't support RAID arrays.
- B. No, iFolder 3.1 isn't multiprocessor-enabled.

- C. No, iFolder 3.1 can't be implemented on OES Linux.
- D. No, iFolder 3.1 doesn't support the NSS file system.
- E. Yes, this system meets the recommended guidelines.
- F. No, iFolder 3.1 on OES Linux should service a maximum of 250 users.

Answer: E

12. You've just completed an upgrade of a NetWare 5.1 server to OES NetWare. You now need to install additional products. Which utilities can you use to do this? (Choose)

- A. iManager
- B. Remote Manager
- C. Deployment Manager
- D. Novell Application Manager
- E. The Install utility in the OES NetWare server GUI

Answer: CE

13. You need to migrate a Traditional NetWare File System volume from a SCSI hard disk on an existing NetWare 6.5 server to a RAID 0+1 array on an OES Linux server. The OES Linux server has eDirectory, NCP Server, NSS, LUM, and Storage Management Services (SMS) configured and running. You've installed the NFS name space on the traditional NetWare volumes. Can you use the Server Consolidation Utility to complete the migration?

- A. Yes, all the prerequisites are met.
- B. No, you must remove the NFS name space from the traditional volume.
- C. No, you must first disable LUM on the destination OES Linux server.
- D. No, you can't migrate volumes from a SCSI hard disk to a RAID array.
- E. No, you can't migrate volumes to a RAID 0+1 array. NSS only supports migration to RAID 5 arrays.

Answer: A

14. You are planning a deployment of an OES Linux server in your network. This server needs to provide the following: Can this be done?

- A. No, OES Linux doesn't support DFS.
- B. No, OES Linux doesn't support NSS volumes.
- C. No, OES Linux doesn't provide DNS services.
- D. No, OES Linux doesn't provide DHCP services.
- E. Yes, these services can be configured on OES Linux.
- F. No, OES Linux doesn't support Windows workstations using the Client for Microsoft Networks.

Answer: A

15. When defining a share in the Novell Samba configuration file, which instruction, is used to specify whether the share will be automatically displayed in My Network Places or Network Neighborhood on a Windows client system?

- A. public = yes
- B. viewable = yes
- C. writable = yes
- D. guest ok = yes
- E. printable = yes
- F. browseable = yes
- G. showashomes = yes
- H. displayonclient = yes

Answer: F

16. You're using the iFolder 3.1 Client on a Windows XP workstation. In Windows Explorer, you right-click on an iFolder and then select Delete. When you do this, the iFolder and its contents are deleted from the iFolder server. What access right did your user account have to the iFolder?

- A. Owner
- B. Manager

- C. Read Only
- D. Read/Write
- E. Full Control
- F. Administrator

Answer: A

17. You need to deliver applications to your users and workstations that reside in remote locations outside your organization's firewall. What is required to accomplish this using ZENworks Desktop Management?

- A. Load Nal.nlm with the -N switch.
- B. Implement the ZENworks Middle-Tier server.
- C. Load Appman.nlm with the -PASSTHROUGH switch.
- D. Enable dynamic NAT passthrough on the server where ZENworks is installed.

Answer: B

18. You're responsible for managing an OES NetWare server. Your server has two NSS volumes and two NSS pools. The SYS volume resides in the SYS pool. The DATA volume resides in the DATA_POOL pool. The DATA_POOL pool is 800 GB in size. The DATA volume is 500 GB in size. You want to create two more volumes: ?

APPS

ARCHIVE

Each of these volumes must be 300 GB in size. You want to add these two volumes to the DATA_POOL pool. Can you do this?

- A. No, you can't implement more than two volumes in a single pool.
- B. No, the combined size of the volumes exceeds the size of the pool.
- C. Yes, the combined size of the volumes can exceed the size of the pool.
- D. No, the combined size of all the volumes in a single pool can't exceed 1 TB.
- E. No, the performance of the system will be dramatically impacted by adding additional volumes to the same pool.

Answer: C

19. You're planning the deployment of a new Open Enterprise Server network. You will create a new eDirectory tree with the first OES server you install. Each server in the tree will function in a specified role. You plan to install the following servers:

Which server should be the first server installed in the eDirectory tree?

- A. DA1
- B. DA2
- C. DA3
- D. DA4
- E. DA5
- F. It doesn't matter which OES server is installed first in the eDirectory tree.

Answer: F

20. When configuring a Workstation package, policies are available under 6 categories: General, Windows 9x, Windows NT-2000-XP, Windows NT, Windows 2000, and Windows XP. Which policies can be configured under the General policies category? (Choose 3.)

- A. Novell iPrint
- B. Windows Group
- C. Remote Control
- D. Workstation Imaging
- E. Computer Extensible
- F. Workstation Inventory

Answer: ACD
