

060-DSFA680 Altiris Certification

Altiris Altiris Deployment Solution Foundation 6.8

060-DSFA680: Altiris Deployment Solution Foundation 6.8

Practice Exam: 060-DSFA680 Exams

Exam Number/Code: 060-DSFA680

Exam Name: Altiris Deployment Solution Foundation 6.8

Questions and Answers: 100 Q&As

([Altiris Certification](#))

Altiris Certification [060-DSFA680](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Altiris Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title. Exam : [060-DSFA680](#)

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Altiris Altiris Certification 060-DSFA680** examination of original title complete coverage. Just4Exam **060-DSFA680 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 060-DSFA680

Exam Name: Altiris Deployment Solution Foundation 6.8(Altiris Certification)

Questions and Answers: 100 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 060-DSFA680 Exam.

060-DSFA680 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Altiris Certification product experts, included the current newest 060-DSFA680 examination questions.

3. 100% Guarantee to Pass Your Altiris Certification exam and get your Altiris Certification Certification.

All will purchase "060-DSFA680 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Altiris Certification 060-DSFA680 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 060-DSFA680 Q&A are more than 96%. All you need to study the whole 060-DSFA680 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 060-DSFA680 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 060-DSFA680 Q&A, absolutely guarantee you

interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 060-DSFA680 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Altiris 060-DSFA680](#) Test belongs to one of the AltirisCertification certified test, if needs to obtain the AltirisCertification certificate, you also need to participate in other related test, the details you may visit the [AltirisCertification](#) certified topic, in there, you will see all related AltirisCertification certified subject of examination.

060-DSFA680

Just4Exam professional provide AltirisCertification 060-DSFA680 the newest Q&A, completely covers 060-DSFA680 test original topic. With our complete AltirisCertification resources, you will minimize your AltirisCertification cost and be ready to pass your 060-DSFA680 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 060-DSFA680 exam

060-DSFA680 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

060-DSFA680 exam questions updated on regular basis

Same type as the certification exams, 060-DSFA680 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 060-DSFA680 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

Exam : Altiris 060-DSFA680

Title : Altiris Deployment Solution Foundation 6.8

1. AClient has not been password protected.

Which three tasks can be performed after right-clicking on the AClient icon from a managed computer? (Choose three.)

- A. initiate Microsoft's Sysprep Utility in preparation for imaging
- B. view the AClient log file when log files have been enabled
- C. change the name of the managed computer as it appears in the Deployment Console
- D. change the NetBIOS name of the managed computer
- E. monitor AClient's communication with the Deployment Server
- F. reinstall AClient
- G. edit the AClient template file

Answer: BCE

2. Which Deployment Solution component stores the main Deployment System program files?

- A. Deployment Server
- B. Deployment Database
- C. Deployment Share

- D. Microsoft DHCP Server
- E. Deployment PXE Server
- F. Deployment Console

Answer: C

3. When capturing a computer's personality, the application settings used for this process are located in which file type?

- A. .INI
- B. .A2I
- C. .ASI
- D. .PBT

Answer: B

4. AClient has been installed on your Windows XP managed computers.

Which three methods can be used to change the settings AClient is currently using? (Choose three.)

- A. from the Deployment Console, right-click on the computer and select Change Agent Settings
- B. from the Deployment Console, select Tools > AClient > Configurations
- C. from the managed computer, select Start > All Programs > Altiris > AClient > Configuration
- D. from the managed computer, double-click the AClient icon located in the system tray and select Properties
- E. from the Deployment Console, double-click on a computer and edit the client properties
- F. use the Deployment Console to reinstall AClient with the desired settings

Answer: ADF

5. You can use _____ to ensure that your PXE servers are servicing the correct managed computers.

- A. IP blocking
- B. Conditions
- C. MAC filtering
- D. NetBIOS name recognition

Answer: C

6. AClient (on a managed computer) has been configured to use a multicast packet to locate the Deployment Server.

Which statement is now true?

- A. moving this computer to a different Deployment System requires the AClient agent be reconfigured
- B. images can be sent using unicast packets or multicast packets
- C. this setting configures images to be sent to the computer using multicasting technology
- D. the Deployment Server must be configured to obtain its IP address from a DHCP server

Answer: B

7. Which Deployment Console method lets you work with software virtualization layers?

- A. using a Deployment job
- B. selecting Tools > Software Virtualization
- C. right-clicking on a computer and selecting Software Virtualization > Manage Layers

Answer: A

8. While imaging computers, Deployment Solution supports the use of UNDI drivers.

Which UNDI driver statements are true? (Choose two.)

- A. UNDI drivers are written specifically to work with the Altiris automation process.
- B. UNDI drivers must be downloaded and installed from Intel's Web site before they can be used.
- C. UNDI drivers let you image computers without obtaining a specific manufacturer's network driver for each network card.
- D. UNDI drivers do not support multicasting of hard disk images across the entire network.
- E. UNDI drivers support multicasting of hard disk images across the entire network.

Answer: CD

9. Which required symbol identifies the opening and closing of a Deployment token?

- A. %
- B. #
- C. \$
- D. *

Answer: A

10. Which utility removes the security ID (SID) before making an image of a computer?

- A. SIDgenerator
- B. SetupCapture
- C. Sysprep
- D. ImageExplorer
- E. SIDconfig

Answer: C

11. Which program lets you edit image files after they have been created?

- A. ImgViewer
- B. ImageExplorer
- C. ImageEditor
- D. ImageManager
- E. ImgManager

Answer: B

12. When using the DOS operating system, image files with an .EXE file extension _____?

- A. cannot be deployed using a Deployment job
- B. must be converted to .IMG before they can be deployed with a Deployment job
- C. cannot be converted to .IMG files
- D. can be deployed without using additional Altiris imaging software

Answer: D

13. Which Altiris utility creates the necessary media to run the Initial Deployment job from a CD?

- A. ImageExplorer
- B. RapiDeploy
- C. PXE Configuration Utility
- D. Initial Deployment Configuration Utility
- E. Boot Disk Creator

Answer: E

14. Deployment Agents (such as AClient) can be installed on remote computers using the Remote Agent Installer, but only when the remote computers are running which four operating systems? (Choose four.)

- A. Windows 2000
- B. Windows 95
- C. Windows NT
- D. Windows XP
- E. Windows 2003
- F. Linux
- G. Windows 98

Answer: ACDE

15. When using Altiris PXE servers in a Deployment System, which PXE statement is true?

- A. Multiple PXE servers can only be installed if a router separates them.
- B. If a PXE server is configured to delay its response, it will respond only if no other PXE server responds

immediately.

- C. A managed computer only uses the first PXE server it hears from.
- D. Configuring multiple PXE servers to respond immediately causes errors on the managed computers.

Answer: C

16. Which statement about deploying computer image files is true?

- A. The RDeploy switch used to preserve existing partitions is enabled by default.
- B. Aborting the deployment process (after imaging as started) corrupts the destination computer's hard drive.
- C. The maximum space required on the destination hard drive is equal to the size of the image file.
- D. The imaging process is non-destructive, and adds data to what is already stored on an existing hard drive partition.

Answer: B

17. How does a Deployment Solution job let you work with software virtualization layers? (Choose two.)

- A. layers can be imported to a managed computer
- B. layers can be created
- C. the state of a layer can be managed (activated, deactivated, and so forth)
- D. the content of a layer can be modified

Answer: AC

18. You have deployed a hardware independent image to an ACPI Uniprocessor computer and now the computer will not start.

What is the probable cause?

- A. the wrong hardware abstraction layer (HAL) was deployed
- B. Sysprep was not run on the source computer
- C. the ACPI Uniprocessor computer does not support hardware independent images
- D. a clean Windows installation was not performed on the source computer before creating the hardware independent image.

Answer: A

19. You are using the Deployment Console's New Job Wizard to migrate a computer's personality from one computer to different computer.

What happens to the names of these two computers during this process?

- A. The destination computer is automatically given a new unique name.
- B. The source computer is automatically renamed and the destination computer gets the original name of the source computer.
- C. The two computers will end up with identical names, therefore you must rename one of the computers manually.

Answer: B

20. Deployment Solution's Simple Install Helper will check for and install which required third-party software? (Choose two.)

- A. Java
- B. DirectX
- C. ActiveX
- D. .NET framework
- E. Pre-boot automation operating systems
- F. SQL

Answer: DF
