Exam : [190-711](#)

CLP [190-711](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and CLP product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Lotus CLP 190-711** examination of original title complete coverage.Just4Exam **190-711 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 190-711

Exam Name: IBM Lotus Notes Domino 7 App.Dev.Intermediate Skills(CLP)

Questions and Answers: 90 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 190-711 Exam.

190-711 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the CLP product experts, included the current newest 190-711 examination questions.

3. 100% Guarantee to Pass Your CLP exam and get your CLP Certification.

All will purchase "190-711 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate.Just4Exam helps you one time pass the CLP 190-711 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 190-711 Q&A are more than 96%.All you need to study the whole 190-711 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 190-711 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 190-711 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 190-711 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

Lotus 190-711 Test belongs to one of the CLP certified test, if needs to obtain the CLP certificate, you also need to participate in other related test, the details you may visit the [CLP](#) certified topic, in there, you will see all related CLP certified subject of examination.

190-711

Just4Exam professional provide CLP 190-711 the newest Q&A, completely covers 190-711 test original topic. With our complete CLP resources, you will minimize your CLP cost and be ready to pass your 190-711 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 190-711 exam

190-711 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

190-711 exam questions updated on regular basis

Same type as the certification exams, 190-711 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 190-711 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

Just4Exam.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Lotus 190-711

Title : IBM Lotus Notes Domino 7 App.Dev.Intermediate Skills

1. Joan wants to create an agent that will send a memo on behalf of her boss. However, when she saves the agent, it will not run on the server because she does not have the authority to create agents to run on someone else's behalf. What does Joan need to do to get the right authority?

- A. Joan needs to have Manager access on the database ACL.
- B. Joan needs to be listed in the "Run unrestricted methods and operations" security field in the Server document.
- C. Joan needs to be listed in the "Sign agents to run on behalf of someone else" security field in the Server document.
- D. Joan needs to be listed in the "Sign agents to run on behalf of someone else" security field and be listed in the "Full access administrators" security field on the Server document.

Answer: C

2. Jim is designing a new application that will be deployed to multiple sites using database replicas. What can he replicate?

- A. View indexes
- B. Database launch properties
- C. Full Text indexes
- D. Database file names

Answer: B

3. The Video application has a "Videos by Type" view that categorizes videos by movie type. Jill wants to create an interface that will allow users to select a movie type and then display a list of video documents for that movie type. She has created a form with a keyword field that allows users to select a movie type. How can she display just a list of documents that match the movie type the user picked?

- A. Embed the "Videos by Type" view into the form and program the "Show single category" embedded view option to use the movie type value in the keyword field.
- B. Embed the "Videos by Type" view into the form and program the "Embedded selection" embedded view option to use the movie type value in the keyword field.
- C. Create a button on the form that opens the "Video by Type" view and program the "Single Category" view event to use the movie type value in the keyword field.
- D. Create a button on the form that opens a dialog box that opens the "Video by Type" view and program the "Single Category" view event to use the movie type value in the keyword field.

Answer: A

4. Joan wants to create an agent that will send a memo on behalf of her boss. However, when she saves the agent, it will not run on the server because she does not have the authority to create agents to run on someone else's behalf. What does Joan need to do to get the right authority?

- A. Joan needs to have Manager access on the database ACL.
- B. Joan needs to be listed in the "Run unrestricted methods and operations" security field in the Server document.
- C. Joan needs to be listed in the "Sign agents to run on behalf of someone else" security field in the Server document.
- D. Joan needs to be listed in the "Sign agents to run on behalf of someone else" security field and be listed in the "Full access administrators" security field on the Server document.

Answer: C

5. Muriel has integrated an Outline into her database to provide the navigation, and has verified that the functionality is correct. Instead of displaying the default folder icons to show when an outline entry can be expanded, Muriel would like to display a plus sign, similar to what she sees in the Domino Designer interface when looking at the outline of design elements for a database, and similar to what her users see when they open Windows Explorer. How can Muriel get the desired appearance for her Outline?

- A. Open the Outline and from the Outline Properties box, click the styles tab. Select "Tree options". In the options area that now displays, select "Show twisties", and click "OS style".
- B. Open the Outline Entry Properties box for each expandable entry. From the Info tab, select Image, and click "OS style".
- C. Open the Embedded Outline Properties box from the page on which the outline is embedded. For the Twisties option, select "Show twisties", and then select "OS style".
- D. Create or locate a graphic of the plus sign and of the minus sign. Copy these graphics as expand.gif and collapse.gif to the server dominographics folder, replacing the default icons.

Answer: C

6. Susan has enabled document locking on her Lotus Domino server. She wants to lock a document using an action button formula in a document that is currently being read. Which formula should she use?

- A. @DocLock([LOCK])
- B. @DocLock([LOCKINGENABLED])
- C. @Command([EditDocument]); @DocLock([LOCK])
- D. @Command([EditDocument]); @Lock(@ThisDoc)

Answer: A

7. Which items contain data types stored as summary data by default?

- A. Text, number, date/time, reader names
- B. Text, text lists, rich text
- C. All data types are stored in the summary buffer.
- D. Rich text, file attachments, embedded OLE objects

Answer: A

8. Kristin wants to create a button to display one page that will remain constant as users scroll or link to other pages.

Which @Command should Kristin use in the button?

- A. @Command([OpenPage])
- B. @Command([OpenFrame])
- C. @Command([OpenFrameset])
- D. She should not use an @Command. This must be done using JavaScript.

Answer: C

9. Bill wants to provide context-sensitive Help in his forms in a Video application so that users can open them by pressing the F1 key. Which one of the following best describes what Bill can do to override the default F1 context-sensitive Help of the Notes client?

- A. Write a formula for the onHelp event on the forms.
- B. Create a JavaScript applet that is embedded in the forms.
- C. Bill cannot override the default Notes client F1 Help on his forms.
- D. Enable context-sensitive Help on the database Advanced properties.

Answer: A

10. TestInside.com has offices in many different countries. There is a single Inventory database, replicated to a server in each country. Users connect to the server associated with the country in which they work. Each Product document includes a multivalue field named Country, indicating the country or countries in which the product is available. How can Drew ensure that the server in each country is only sent the data for products for sale within that country?

A. On the Security tab of the Properties for each country replica database, select "Restricted replication". Select "Restrict by formula". Type the replication formula:

```
SELECT @IsMember("COUNTRY_NAME"; Country)
```

B. On the Advanced tab of the Replication Settings for each country replica database, select "Documents by selection formula", and type the formula: SELECT

```
@IsMember("COUNTRY_NAME"; Country)
```

C. Add a computed Authors field to the Product forms in the database. Use a value formula of "Country". Run an agent to refresh all documents.

D. On the Defaults tab of the Properties for the Product form, select "by formula" under "Restrict copying". Type the formula: SELECT @IsMember(@Location("1"); Country)

Answer: B

11. When a new request is received in the Help Desk mail-in database, and the Subject includes the word "Emergency" in any combination of upper and lower case characters, then a message should be mailed to support staff. What should Mira do to automate these messages?

A. Code a shared agent to send the required message that examines the Subject field to determine the need to send. On the Launch tab of the agent Properties, select "Mail" for the Event Type, and select "After new mail has arrived".

B. Edit the Memo form in the Help Desk database. Add a hidden, computed-when-composed field called DeliveryReport. For the field value, use the formula: @If(@Contains(@UpperCase(Subject);"EMERGENCY"); "C"; "N"). Add a computed field called SendTo, set to the recipient names.

C. Code a shared agent to send the required message that examines the Subject field to determine the need to send. In the Runtime section on the Basics tab of the agent Properties, select "On event" for the Trigger, and select "After new mail has arrived".

D. On the Advanced tab of the Memo form Properties, select "Send on Receipt". Select the name of the form or page that contains the message that is to be sent. Select the names or groups of the recipients. For the On Event formula, type: @Contains(@UpperCase(Subject);"EMERGENCY")

Answer: C

12. Andre has hidden the design of a database. Which one of the following describes how to re-sign the database with a different ID?

- A. Once the design of a database has been hidden, the database cannot be re-signed.

- B. Sign the design template using the new ID, and replace the design of the database with this template.
- C. Make a copy of the database without the ACL. This will unhide the design, and allow re-signing.
- D. Deselect the 'Hide formulas and LotusScript' database property and re-sign the database.

Answer: B

13. Cindy locked a design element and left on vacation. The design element has to be changed. Who can change it?

- A. Only Cindy
- B. Anyone with Designer access or higher
- C. Only those with Manager access
- D. Anyone with Editor access or higher

Answer: B

14. In Domino Designer, Casey has opened the list of forms in his application. He has selected several forms and has opened the properties dialog box for the multiple design elements. Which settings can he control from this dialog box?

- A. Hide the forms based on a formula.
- B. Add a comment about the selected forms.
- C. Enable/Disable the "Include Search Builder" form setting.
- D. Enable/Disable the "Prohibit design refresh or replace to modify" setting.

Answer: D

15. Dwayne is developing a custom navigation scheme to replace the default Folder pane in the Purchase Order database. He has created the "Main Outline" element for this navigation, but when he tries to add the outline to the "Main Frameset" frameset, he sees that he can add some design elements, but not outlines. How can Dwayne add the outline to his frameset?

- A. An outline is a special type of form. Select "Named element" as the Type on the Frame Properties, then select Form. Now, the new outline is available in the selection list along with the other forms.
- B. Create a new Frame design element and embed Main Outline in this new frame. Open the frameset and link the new frame in the desired position.
- C. An outline is a special type of Page. Select "Named element" as the Type in the Frame Properties, then select Page. Now, the new outline is available in the selection list along with the other pages.
- D. Create a new Page design element and embed Main Outline on this new page. Open the frameset and add the page to the new frameset.

Answer: D

16. The Help Desk view should display Emergency requests with red text on a light gray background. All other requests should have black text on a white background. Margarete has coded these lines of formula:

```
red := 255:0:0; lightGray := 240:240:240;
```

```
black := 1:1:1; white := 255:255:255;
```

What does she need to code for the remaining line, and where will Margarete use this formula?

- A. @If(Emergency = "Yes"; red:lightGray; black:white) Place the formula in a hidden column, after all data columns, and with the "Use value as color" option selected.
- B. @If(Emergency = "Yes"; lightGray:red; white:black) Select "Use row colors" on the Styles tab of view Properties. Place the formula in the Formula Window that is available when this option is selected.
- C. @If(Emergency = "Yes"; lightGray:red;; white:black) Place the formula in a hidden column before all data columns, and with the "Use value as color" option selected.
- D. @If(Emergency = "Yes"; red:lightGray; black:white) Select "Use row colors" on the Styles tab of view Properties. Place the formula in the Formula Window that is available when this option is selected.

Answer: C

17. Fred has been receiving a number of support calls from users who have customized the Monthly Sales view. They have reordered and resized columns and set color options to the point where the view is hard to use. What can Fred do to prevent these problems in the future?

- A. Deselect the "Editable column" option on the column properties for each column that needs to retain its formatting.
- B. Deselect the "Allow customizations" option on the Info tab of the view properties.
- C. Deselect the "Resizable" option on the column properties for each column that needs to retain its formatting, and delete the hidden columns that have the "Use value as color" option selected.
- D. Ask the Notes administrators to push a profile to the users to lock the "Disable View updates as a background task" as selected, and the "Retain View column sorting" as deselected in User Preferences.

Answer: B

18. Fred has been receiving a number of support calls from users who have customized the Monthly Sales view. They have reordered and resized columns and set color options to the point where the view is hard to use. What can Fred do to prevent these problems in the future?

- A. Deselect the "Editable column" option on the column properties for each column that needs to retain its formatting.
- B. Deselect the "Allow customizations" option on the Info tab of the view properties.
- C. Deselect the "Resizable" option on the column properties for each column that needs to retain its formatting, and delete the hidden columns that have the "Use value as color" option selected.
- D. Ask the Notes administrators to push a profile to the users to lock the "Disable View updates as a background task" as selected, and the "Retain View column sorting" as deselected in User Preferences.

Answer: B

19. The documents in the SafetyPolicies.nsf database contain many graphics. Users are complaining that the documents are taking too long to open. Which one of the following database settings can John enable to improve performance when opening documents?

- A. Display images as JPEG
- B. Display images after loading
- C. Optimize document bitmap compression
- D. Optimize document table map

Answer: B

20. Araceli wants to create a profile document in the SalesOrder application. This document [or is it the application?] provides an easy way for the Sales managers to control the names of recipients for certain types of notifications, to designate the locations of other databases accessed by the SalesOrder application, and to edit various other settings. Araceli has created the "DB Profile" form with the needed fields. How can she create the profile document?

- A. Create a view action button with the formula: @Command([EditProfileDocument]; "DB Profile") Use a hide formula to expose the button only to the Sales managers.
- B. On the Security tab of the form Properties, select the SalesManagers group under "Who can create documents with this form". A Sales manager will then use the Create menu to create the document.
- C. Create a view action button with the formula: @Command([EditProfileDocument]; "DB Profile") Use a hide formula to expose the button only to the Sales managers.
- D. Create a view with the selection formula: SELECT Form = "DB Profile" On the Security tab of the view Properties, select the SalesManagers group under "Who may use this view". Create a view action button with the formula: @Command([CreateProfileDocument]; "DB Profile")

Answer: A
