Oracle R12 Oracle: install, Patch and Maintain Oracle Applications

1z0-238: R12 Oracle: install, Patch and Maintain Oracle Applications

Practice Exam: 1z0-238 Exams

Exam Number/Code: 1z0-238

Exam Name: R12 Oracle: install, Patch and Maintain Oracle Applications

Questions and Answers: 223 Q&As

([Other Oracle Certification](#))

Other Oracle Certification [1z0-238](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Other Oracle

Exam : [1z0-238](#)

Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Oracle Other Oracle Certification 1z0-238** examination of original title complete coverage. Just4Exam **1z0-238 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 1z0-238

Exam Name: R12 Oracle: install, Patch and Maintain Oracle Applications (Other Oracle Certification)

Questions and Answers: 223 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 1z0-238 Exam.

1z0-238 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Other Oracle Certification product experts, included the current newest 1z0-238 examination questions.

3. 100% Guarantee to Pass Your Other Oracle Certification exam and get your Other Oracle Certification Certification.

All will purchase "1z0-238 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Other Oracle Certification 1z0-238 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 1z0-238 Q&A are more than 96%. All you need to study the whole 1z0-238 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 1z0-238 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC

or VUE test centers Seal. we will refund your full cost of 1z0-238 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 1z0-238 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Oracle 1z0-238](#) Test belongs to one of the Other Oracle Certification certified test, if needs to obtain the Other Oracle Certification certificate, you also need to participate in other related test, the details you may visit the [Other Oracle Certification](#) certified topic, in there, you will see all related Other Oracle Certification certified subject of examination.

1z0-238

Just4Exam professional provide Other Oracle Certification 1z0-238 the newest Q&A, completely covers 1z0-238 test original topic. With our complete Other Oracle Certification resources, you will minimize your Other Oracle Certification cost and be ready to pass your 1z0-238 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 1z0-238 exam

1z0-238 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

1z0-238 exam questions updated on regular basis

Same type as the certification exams, 1z0-238 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Oracle 1Z0-238

Title : R12 Oracle: install,Patch and Maintain Oracle Applications

1. While working with Web forms an application user sometimes comes across a performance issue. The initial screen takes too long to appear with the Web form screen, showing the status "Downloading JAR files..." for a long time.

Identify the reasons for this. (Choose two.)

A.It always takes time to load the Web forms.

B.An older version of Sun J2SE plug-in is installed on the Desktop tier.

C.JAR files for the Forms client applet are downloaded automatically the first time it is used.

D.The browser will automatically retrieve new JAR files if they have changed on the application tier.

E.The Internet Explorer browser security level should be set as "Low" for the zone that contains the Oracle Application Release 12 Web pages.

Answer: CD

2. What is the default value of ?

A.APPS_

B.APPS_

- C._
- D._
- E.APPS_

Answer: D

3. Identify the files that are changed when you run AutoConfig. (Choose all that apply.)

- A./listener.ora
- B./env
- C./admin/adconfig.txt
- D./env
- E./appl/admin/.xml

Answer: ABD

4. You run the AD Administration utility and select the Relink Applications programs.

You answered the following questions during the utility run:

Do you wish to proceed with the relink [Yes]? (You answer Yes.)

Enter the list of products to link ("all" for all products) [all]? (You answer "ad.")

Do you want to generate specific executables for each selected product [No]? (You answer Yes.)

AD Administration can relink your Oracle Applications programs with debug information. Oracle recommends that you do not relink your programs with debug information unless asked to do so by Oracle Support Services.

Do you want to relink with debug information [No]? (You answer No.)

What is the next question asked by adadmin?

- A.It gives you a list of all executables to choose from.
- B.It gives you the list of "ad" executables to choose from.
- C.It gives you the list of all executables except "ad" to choose from.
- D.It asks no question. It displays the message "Review the messages above, then press [Return] to continue."

Answer: D

5. As part of the cloning process, the Applications DBA needs to copy the application tier file system to the target system.

Which step is NOT a part of this process?

- A.Shut down the application tier server processes.
- B.Log on to the target system application tier nodes as the oracle user.
- C.Copy the APPL_TOP directory from the source node to the target node.
- D.Copy the directory from the source node to the target node.
- E.Copy the directory from the source node to the target node.
- F.Copy the directory from the source node to the target node.
- G.Copy the <806 ORACLE_HOME> directory from the source node to the target node.

Answer: B

6. Before you apply a patch, you read the readme.txt file.

One of the areas of Oracle Applications to which the patch will be applied is JAVA_TOP.

The readme file mentions that you may need to generate product JAR files in the AD Administration utilities after the patch is applied.

When generating product JAR files, the AD Administration utility will prompt you with the question: Do you want to force the generation of all JAR files?

What are the three occasions when you need to force the generation of all JAR files? (Choose three.)

- A.after changing your digital signature
- B.after updating to a new Java version
- C.if you find you have missing or out-of-date JAR files
- D.if you are upgrading the Oracle Developer technology stack

Answer: ABD

7. What are the two possible sequences of worker status while a job is being completed by a worker? (Choose two.)

- A.Waiting => Assigned => Running => Completed
- B.Assigned => Waiting => Running => Completed
- C.Waiting => Assigned => Running => Failed => Fixed, Restart => Restarted => Completed
- D.Assigned => Waiting => Running => Failed => Fixed, Restart => Restarted => Completed
- E.Waiting => Assigned => Running => Failed => Fixed, Restart => Restarted => Running => Completed

Answer: AC

8. Which command can be used only with a single-node installation?

- A.rapidwiz -restart
- B.rapidwiz -techstack
- C.rapidwiz -servername
- D.rapidwiz -silent -config

Answer: C

9. If the patch is running in Pre-Install mode, where would the patch history files be stored in Oracle Applications R12 configured on a UNIX operating system?

- A.\$AD_TOP/admin
- B.\$APPL_TOP/admin
- C.\$TEMP/runInstaller
- D.\$APPL_TOP/admin/
- E.\$COMMON_TOP/admin/

Answer: D

10. During installation, the Rapid Install process creates _____ that are used to start and stop the server processes on the database tier.

- A.JServer load balancers
- B.cost-based optimizers
- C.database resource managers
- D.session-persistent load balancers
- E.database-tier server process scripts

Answer: E

11. AD Administration contains a utility named Maintain Snapshot Information. Which statements correctly describe the functionality of this utility? (Choose all that apply.)

- A.You can create a copy of an existing snapshot.
- B.You can delete the current view snapshot.
- C.You can create a list of the current view and named snapshots stored in your system.
- D.You can export an existing snapshot to a file for storage or to another system.
- E.You can update the current view snapshot with any changes to the snapshot since the last update.

Answer: ACDE

12. You experience report-error problems in the Inventory module after applying a patch to the same module.

You run the AD Administration utility, and select the Generate Application Files menu. Because you have report problems, you decide to run Generate Report Files.

You answered the following questions during the utility run:

1. Do you want to generate Oracle report objects using the current character set? (You answer Yes.)
2. Do you want to regenerate the Oracle reports PL/SQL library files? (You answer No.)
3. Do you want to regenerate Oracle reports executable files? (You answer Yes.)
4. For which products do you want to generate Oracle report objects? (You answer "all reports in INV.")

After you run the AD utilities, most reports in Inventory run with no errors. However, you still experience errors with two reports.

Which two statements explain why the two reports still run with errors? (Choose two.)

- A. You have reports in a different language.
- B. You have reports with external library files.
- C. You have custom reports in a custom directory.
- D. You have reports from a different module being referenced on the Inventory report menu.

Answer: B

13. You just brought the middle tier back after a hardware problem has been fixed. Oracle Applications now experience problems with an entire product group of forms (fnd), which includes the sign-on form. You decide that you will generate the forms files in AD Administration to see whether this will fix the problem. You answered the prompts from the utility as follows:

1. Do you want to generate Oracle Forms using your current character set? (Yes)
2. Do you want to regenerate Oracle Forms PL/SQL library files? (Yes)
3. Do you want to regenerate Oracle Forms executable files? (Yes)
4. Do you want to regenerate Oracle Forms menu files? (Yes)
5. Enter the list of products, or enter 'all' [all]: (fnd)
6. Do you want to generate specific form objects for each selected product? (Yes)
7. Enter libraries and menus to generate, or enter 'all' [all]: (APPCORE.pll, the main library)
8. Enter forms to generate, or enter 'all' [all]: FNDSCSGN.fmx

The utility finished with no errors in the log file.

What is the outcome of running the adadmin utility?

- A. All forms in the product group fnd now render with errors.
- B. All forms in the product group fnd now render without errors.
- C. All forms but one in the product group fnd now render with errors.
- D. All forms but one in the product group fnd now render without errors.

Answer: C

14. After the successful installation of Oracle Applications Release 12, environment files are created. Which environment file is used to identify and describe third-party and custom applications linked with Oracle Applications?

- A. the context file
- B. the devenv.env file
- C. the fndenv.env file
- D. the adovars.env file
- E. the adconfig.txt file

Answer: B

15. Which table is used by AutoPatch as a staging area for the job information in parallel mode and needs to be dropped to start a new autopatch session if the earlier session failed?

- A. FND_JOBS
- B. FND_PROCESSES
- C. FND_INSTALL_PROCESSES
- D. FND_INSTALLED_PROCESSES

Answer: C

16. Identify two ways in which you validate the APPS schema in the Oracle Applications R12 E-Business Suite setup. (Choose two.)

- A. Run the /appsutil/scripts//advfapp.sh script.
- B. Run the AD Administration utility in noninteractive mode with the default file having menu_option=VALIDATE_APPS.
- C. Run the AD Administration utility in interactive mode, and then select Compile/Reload Applications Database Entities menu > Compile APPS Schema option.
- D. Use SQL*PLUS / @\$AD_TOP/admin/sql/advfapp.sql .

Answer: BD

17. You discover that you will be applying an application patch on your APPL_TOP by using AutoPatch, which contains a compatible feature, the prereq line.

To ensure that the automatic, prerequisite patch-checking feature operates during the application of the patch, you must run AD Administration, Maintain Snapshot Information, then perform some key tasks, and then AutoPatch. Select four key Maintain Snapshot Information tasks or combination of tasks that will ensure that the prerequisite patch-checking feature operates during the application of the patch. (Choose four.)

- A. Update a current view snapshot, or create a named snapshot.
- B. Export a snapshot to a file, and then delete the named snapshot.
- C. Import an up-to-date snapshot from a file from a different APPL_TOP.
- D. List snapshots, delete the named snapshot, and create a named snapshot.
- E. Copy the existing snapshot, delete the named snapshot, and then create a named snapshot.

Answer: ACDE

18. What are the two occasions when it is appropriate to run "Compile APPS schema" by using the AD Administration utility in the Oracle Applications R12 E-Business Suite environment? (Choose two.)

- A. during the Oracle Applications R12 E-Business Suite upgrade process
- B. when custom packages are moved to the APPS schema and need to be compiled
- C. after enabling the multiple reporting currencies in the Oracle Applications R12 E-Business Suite environment
- D. after enabling the multiorganization functionality in the Oracle Applications R12 E-Business Suite environment
- E. when encountering invalid objects in the SYS and SYSTEM schemas in the Oracle Applications R12 E-Business Suite database

Answer: AB

19. Identify the patch that you apply to upgrade the Oracle Applications system from the 11.5.5 version to the 11.5.10 version.

- A. diagnostic patch
- B. stand-alone patch
- C. maintenance pack
- D. product family release update pack

Answer: C

20. You want to apply a patch on your Oracle Applications system. Before doing this, you want to view the files that are new, changed, and ignored while applying the patch.

Which feature of the Patch Wizard would help you accomplish this?

- A. Patch Filters
- B. Patch Impact Analysis
- C. Recommended Patches
- D. Patch Information Bundle

Answer: B
