

642-067 Access Routing and LAN Switching

Cisco Advanced Routing and Switching for Field Engineers

642-067: Advanced Routing and Switching for Field Engineers

Practice Exam: 642-067 Exams

Exam Number/Code: 642-067

Exam Name: Advanced Routing and Switching for Field Engineers

Questions and Answers: 60 Q&As

([Access Routing and LAN Switching](#))

Access Routing and LAN Switching [642-067](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Access Routing and LAN Switching product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title. Exam : [642-067](#)

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Cisco Access Routing and LAN Switching 642-067** examination of original title complete coverage. Just4Exam **642-067 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 642-067

Exam Name: Advanced Routing and Switching for Field Engineers(Access Routing and LAN Switching)

Questions and Answers: 60 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 642-067 Exam.

642-067 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Access Routing and LAN Switching product experts, included the current newest 642-067 examination questions.

3. 100% Guarantee to Pass Your Access Routing and LAN Switching exam and get your Access Routing and LAN Switching Certification.

All will purchase "642-067 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Access Routing and LAN Switching 642-067 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 642-067 Q&A are more than 96%. All you need to study the whole 642-067 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 642-067 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC

or VUE test centers Seal. we will refund your full cost of 642-067 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 642-067 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Cisco 642-067](#) Test belongs to one of the Access Routing and LAN Switching certified test, if needs to obtain the Access Routing and LAN Switching certificate, you also need to participate in other related test, the details you may visit the [Access Routing and LAN Switching](#) certified topic, in there, you will see all related Access Routing and LAN Switching certified subject of examination.

642-067

Just4Exam professional provide Access Routing and LAN Switching 642-067 the newest Q&A, completely covers 642-067 test original topic. With our complete Access Routing and LAN Switching resources, you will minimize your Access Routing and LAN Switching cost and be ready to pass your 642-067 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 642-067 exam

642-067 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

642-067 exam questions updated on regular basis

Same type as the certification exams, 642-067 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 642-067 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-067

Title : Advanced Routing and Switching for Field Engineers

1. Which two of the following statements are true about HSRP load sharing? (Choose two)

- A. It is achieved by using more than one HSRP group.
- B. It is done in regards to either round robin or weight basis.
- C. It is used to offload the active router in a certain HSRP group.
- D. Single group HSRP is used to achieve more efficient link utilization.
- E. The return traffic is influenced by HSRP load sharing configuration.

Answer: AC

2. Which three of the following steps are mandatory when configuring MPLS on Cisco IOS? (Choose three.)

- A. start LDP
- B. enable CEF switching
- C. configure the MPLS ID
- D. disable IP TTL propagation

- E. configure conditional label advertising
- F. enable label switching on frame mode interfaces

Answer: ABF

3. Which of the following statements about authentication responses and conditions is true? (Choose two.)

- A. When a router receives a failure response, it stops querying authentication methods.
- B. When a router receives an error response, it stops querying authentication methods.
- C. If the router receives a failure response from an authentication method, it queries the next method.
- D. The router does not differentiate between failure and error responses; the authentication process is always interrupted.
- E. If it receives no response from the authentication method, a router will determine the error condition on its own; the router also has the option to proceed to the next method in a list if configured accordingly.

Answer: AE

4. Why is it appropriate to use conditional label advertising when deploying MPLS?

- A. to make CEF tables smaller
- B. to enable label switching on the frame mode interface
- C. to restrict MPLS availability to predefined time periods
- D. to restrict label switching to a limited number of networks
- E. to restrict end users from seeing the routers in the MPLS network

Answer: D

5. How are RIP routing contexts implemented in MPLS VPN?

- A. RIP does not support routing contexts
- B. routing contexts are implemented in a single routing process
- C. routing contexts are implemented using multiple routing processes
- D. routing contexts are implemented as several instances of a single routing process
- E. routing contexts are implemented as a single instance of several routing processes

Answer: D
