Cisco Cisco Express Foundation for Field Engineers

642-383: Cisco Express Foundation for Field Engineers

Practice Exam: 642-383 Exams

Exam Number/Code: 642-383

Exam Name: Cisco Express Foundation for Field Engineers

Questions and Answers: 69 Q&As

([Others](#))

Exam : [642-383](#)

Others [642-383](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Others product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Cisco Others 642-383** examination of original title complete coverage. Just4Exam **642-383 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 642-383

Exam Name: Cisco Express Foundation for Field Engineers(Others)

Questions and Answers: 69 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 642-383 Exam.

642-383 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Others product experts, included the current newest 642-383 examination questions.

3. 100% Guarantee to Pass Your Others exam and get your Others Certification.

All will purchase "642-383 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Others 642-383 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 642-383 Q&A are more than 96%. All you need to study the whole 642-383 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 642-383 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 642-383 Q&A, absolutely guarantee you interests have no losses. (For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 642-383 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Cisco 642-383](#) Test belongs to one of the Others certified test, if needs to obtain the Others certificate, you also need to participate in other related test, the details you may visit the [Others](#) certified topic, in there, you will see all related Others certified subject of examination.

642-383

Just4Exam professional provide Others 642-383 the newest Q&A, completely covers 642-383 test original topic. With our complete Others resources, you will minimize your Others cost and be ready to pass your 642-383 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 642-383 exam

642-383 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

642-383 exam questions updated on regular basis

Same type as the certification exams, 642-383 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 642-383 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-383

Title : Cisco Express Foundation for Field Engineers

1. Which of the following best describe the customer benefits of change management in the operate phase?

A. reduce unnecessary disruption, delays, rework, and other problems by establishing test cases for use in verifying that the system meets operational, functional, and interface requirements

B. improve its ability to make sound financial decisions by developing a business case based on its business requirements and establishing a basis for developing a technology strategy

C. reduce operating costs and limit change-related incidents by providing a consistent and efficient set of processes

D. improve the return on investment and hasten migration by identifying and planning for necessary infrastructure changes and resource additions, as well as reduce deployment costs by analyzing gaps early in the planning process to determine what is needed to support the system

Answer: C

2. What port role assignment would you make for the Gigabit Ethernet port on the Cisco CE520 used in the Smart Business Communications System?

A. IP Phone and desktop

B. Cisco UC520

C. Cisco CE520

D. Cisco 871W

Answer: B

3. What are two ways to test the LAN connectivity on the Cisco CE520? (Choose two.)

- A. Ping the IP address of the Cisco-Data Access VLAN from the Cisco UC520 console.
- B. Ping the IP address of the Cisco-Data VLAN from a device attached to the Cisco CE520.
- C. Ping default gateway from the Cisco UC520.
- D. Ping the IP address of the Cisco-Voice VLAN from a device attached to the Cisco CE520.
- E. Ping default gateway from the Cisco CE520.
- F. Ping the IP address of the Cisco-Distribution VLAN from the Cisco UC520 console.

Answer: BD

4. Which interface on the Cisco UC520 is assigned an IP address either statically or through DHCP?

- A. WAN interface
- B. LAN interface
- C. Switchport
- D. PSTN Interface

Answer: A

5. Refer to the exhibit. Switches A and C are running PVST+ STP, and Switch B is running 802.1Q STP. If the BPDU of the root in VLAN 1 is better than the BPDU of the root in VLAN 2, then there is no blocking port in the VLAN 2 topology. The BPDU of VLAN 2 never makes a "full circle" around the topology; it is replaced by the VLAN 1 BPDU on the B-C link, because B runs only one STP merged with VLAN 1 STP of PVST+. Thus, there is a forwarding loop. What does PVST+ do to correct this?

- A. Switch A sends PVST+ BPDUs of VLAN 2 (to the SSTP address that is flooded by Switch B) towards Switch C. Switch C will put port C-B into a type-inconsistent state, which prevents the loop.
- B. Switch B sends PVST+ BPDUs of VLAN 1 (to the SSTP address that is flooded by Switch A) towards Switch C. Switch C will put port C-B into a type-inconsistent state, which prevents the loop.
- C. Switch C sends PVST+ BPDUs of VLAN 2 (to the SSTP address that is flooded by Switch B) towards Switch C. Switch A will put port C-B into a type-inconsistent state, which prevents the loop.
- D. Switch A sends PVST+ BPDUs of VLAN 1 (to the SSTP address that is flooded by Switch B) towards Switch B. Switch A will put port C-B into a type-inconsistent state, which prevents the loop.

Answer: A

6. What two types of telephony interfaces are used for PSTN connectivity? (Choose two.)

- A. Digital
- B. Optical
- C. Analog
- D. CDMA

Answer: AC

7. In what location is it recommended that the Cisco Catalyst 6500 Series WLSM be placed?

- A. distribution layer
- B. core layer
- C. access layer
- D. network management functional module

Answer: A

8. How can the proper configuration of Voice Mail be tested at an end user's IP phone?

- A. Press the "i" button.
- B. Press the "Settings" button.
- C. Press the "Services" button.
- D. Press the "Messages" button.

Answer: D

9. Which definition best describes the implementation service component within the implement phase?
- A. providing a step-by-step plan that details the installation and service-commission tasks required in order to create a controlled-implementation environment that emulates a customer network
 - B. assessing the ability of site facilities to accommodate proposed infrastructure changes
 - C. developing and executing proof-of-concept tests, validating high-level infrastructure design, and identifying any design enhancements
 - D. installing, configuring, and integrating systems components based on an implementation plan developed in earlier phases
 - E. improving a customer's infrastructure security system

Answer: D

10. A customer with a small enterprise network of 15 remote sites is trying to optimize its VPN by migrating some remote sites using Frame Relay connections to the Internet to using cable connections to the Internet. Minimizing costs is one of the customer's highest priorities. Only a moderate amount of IP traffic is passing through the network, most of which is from the remote sites to the central site. IPSec should be used to provide VPN functionality and basic confidentiality is desired.

Based on the traffic patterns, which topology would be the easiest for this customer to set up and manage?

- A. full mesh
- B. partial mesh
- C. point-to-multipoint
- D. hub-and-spoke

Answer: D

11. Which of these is an accurate list of Cisco Lifecycle Services phases?

- A. initiation, planning, analysis, design, development, implementation, operations and maintenance
- B. project planning, site assessment, risk assessment, solution selection and acquisition, testing, and operations
- C. prepare, plan, design, implement, operate, and optimize
- D. analysis, design, deployment, testing, implementation, and production
- E. presales, project planning, development, implementation, operations testing, and operations sign-off

Answer: C

12. Which statement correctly describes configuration of the VPN server?

- A. It requires definition of a Group ID for remote clients.
- B. It requires configuration of port settings for the VPN server on the Cisco UC520.
- C. It uses a preshared key for remote device authentication.
- D. The WAN interface is preselected.

Answer: C

13. Which of these is the best definition of the Cisco Lifecycle Services approach?

- A. It defines the minimum set of services required to successfully deploy and operate a set of Cisco technologies.
- B. It determines how best to price Cisco products.
- C. It provides partners with a useful way to leverage Cisco resources.
- D. It consists of these phases: plan, deploy, support, and troubleshoot.

Answer: A

14. Which benefit can be obtained by using the change management service component in the operate phase?

- A. reduced operating costs, due to a consistent framework for making necessary changes in an efficient and accountable manner
- B. greater accuracy, completeness, and timeliness of network configuration information
- C. notification provided to interested parties regarding problems that have been identified, and a system that scales with customer requirements
- D. improved system service quality and fewer disruptions

Answer: A

15. Which statement correctly describes the keyswitch model of deployment for call processing?

- A. All IP Phones are able to answer any incoming PSTN call on any line.
- B. PSTN calls are routed through a receptionist or automated attendant.
- C. All IP Phones in the system have a single unique extension number.

Answer: A
