Cisco Unified Communications Architecture and Design

642-415: Unified Communications Architecture and Design

Practice Exam: 642-415 Exams

Exam Number/Code: 642-415

Exam Name: Unified Communications Architecture and Design

Questions and Answers: 58 Q&As

([IP Communications](#))

Exam : [642-415](#)

IP Communications [642-415](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and IP Communications product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Cisco IP Communications 642-415** examination of original title complete coverage. Just4Exam **642-415 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 642-415

Exam Name: Unified Communications Architecture and Design(IP Communications)

Questions and Answers: 58 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 642-415 Exam.

642-415 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IP Communications product experts, included the current newest 642-415 examination questions.

3. 100% Guarantee to Pass Your IP Communications exam and get your IP Communications Certification.

All will purchase "642-415 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam,

And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the IP Communications 642-415 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of 642-415 Q&A are more than 96%. All you need to study the whole 642-415 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 642-415 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 642-415 Q&A, absolutely guarantee you interests have no losses. (For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 642-415 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Cisco 642-415](#) Test belongs to one of the IP Communications certified test, if needs to obtain the IP Communications certificate, you also need to participate in other related test, the details you may visit the [IP Communications](#) certified topic, in there, you will see all related IP Communications certified subject of examination.

642-415

Just4Exam professional provide IP Communications 642-415 the newest Q&A, completely covers 642-415 test original topic. With our complete IP Communications resources, you will minimize your IP Communications cost and be ready to pass your 642-415 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about 642-415 exam

642-415 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

642-415 exam questions updated on regular basis

Same type as the certification exams, 642-415 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 642-415 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-415

Title : Unified Communications Architecture and Design

1. Consider the following customer attributes and choose the correct IP telephony call processing model:

- a large campus that spans two PSAP areas
- a single group of buildings connected via fiber optics
- data VPNs that support multiple contractors and suppliers
- a fully developed three-tier network hierarchy
- connectivity to two different service providers for Internet access

- A. single-site call processing
- B. centralized call processing
- C. hybrid call processing
- D. distributed call processing

Answer: A

2. Ajax wants to ensure that their employees are safe and that they comply with the law. What are four general E911 responsibilities of an enterprise telephony system? (Choose four.)

- A. Enable PSAP call-back.
- B. Initiate the update of ALI records.
- C. Provide a detailed map of all ERLs.

- D. Allow conferencing with internal security personnel.
- E. Route calls to the appropriate point (on-net or off-net).
- F. Deliver appropriate calling party number digits to LEC.

Answer: ABEF

3. What information is relevant to choosing an IP telephony centralized call processing model?

- A. multiple PRIs to the PSTN
- B. a campus of six buildings connected via an ATM backbone
- C. three small regional sales offices located in the three Western time zones
- D. centralized order processing, shipping, and billing for all customer products
- E. connectivity to a single service provider that hosts the company web site and provides for Internet access
- F. a single six-story building with an IDF on each floor and an MDF in the computer room on the second floor

Answer: C

4. What are two conferencing guidelines for a single-site deployment? (Choose two.)

- A. Use hardware conferencing only for small deployments
- B. If available, configure DSPs for flex-mode when there are multiple codec types in use.
- C. Group any conferencing resources into MRGLs based on their location, to manage Call Admission Control.
- D. Make certain that Meet-Me and Ad-Hoc conference resources each account for a minimum of 5% of the user base.

Answer: BD

5. In a TDM PBX to Cisco Unified Communications Manager migration, which three things must be verified from the LAN perspective before IP telephony can be deployed? (Choose three.)

- A. the type of wiring in the office
- B. the number of PSTN connections needed
- C. the number of public IP addresses available
- D. the amount of rack space in the equipment rack
- E. the amount of power that is available to support new LAN switches

Answer: ADE

6. You have decided to use the MGCP signaling protocol for the PSTN gateway at Ajax. Which option is true regarding the use of a gatekeeper in their network?

- A. One may be used for CAC.
- B. One could be used for address resolution.
- C. One may be deployed for both CAC and address resolution.
- D. A gatekeeper is not applicable in this situation.

Answer: D

7. Ajax needs to provide technical support outside of normal operating hours. They would like to deploy a small test call center to develop the skills necessary to provide phone, chat, and e-mail support. Ajax wants to start with five agents. Which two connection types would be applicable for use with the planned contact center? (Choose two.)

- A. PRI
- B. CAS
- C. E&M
- D. QSIG
- E. POTS

Answer: AB

8. The Ajax network coordinator is concerned that the IP phones can be targeted for malicious attack. When the security is designed for the IP telephony solution, which two methods can be used to help prevent malicious phone attacks? (Choose two.)

- A. Ensure the PC port is disabled if a PC is not attached.
- B. Isolate the IP phone VLANs from the PC data VLANs.

- C. Ensure the IP phone firmware is validated with the Cisco Unified Communications Manager.
 - D. Ensure the Cisco Unified Communications Manager is configured to disable acceptance of GARP on IP phones.
- Answer: BD

9. Currently, Ajax is considering implementing an IP contact center for the technical support group. As an interim step, calls to the technical support group need to be distributed in a round-robin fashion. Can this be accomplished?
- A. Yes, with route groups.
 - B. Yes, by using call pick-up groups.
 - C. Yes, by implementing hunt groups.
 - D. Yes, by routing calls via an IVR unit.
 - E. No, Cisco Unified Contact Center is needed.
- Answer: C

10. Ajax has contacted its LEC to obtain an additional range of DIDs. Their current DID range is 555-6000 through 555-6999. The LEC can provide them with an additional range of numbers, 556-6000 through 556-6999. The LEC is currently sending four digits inbound, so the two DID ranges overlap. What two things can be done to resolve this solution? (Choose two.)
- A. Ask the LEC to send five digits.
 - B. Change internal calls to five-digit dialing.
 - C. Move to a six-digit dial plan to provide more dialing granularity for all extension numbers.
 - D. Contact an alternative carrier to see if it can provide a DID range that does not overlap with the current range.
- Answer: AB
