

BI0-210 COGNOS Certification COGNOS IBM Cognos 8 BI Professional

BI0-210: IBM Cognos 8 BI Professional

Practice Exam: BI0-210 Exams

Exam Number/Code: BI0-210

Exam Name: IBM Cognos 8 BI Professional

Questions and Answers: 68 Q&As

([COGNOS Certification](#))

Exam : [BI0-210](#)

COGNOS Certification [BI0-210](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and COGNOS Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **COGNOS COGNOS Certification BI0-210** examination of original title complete coverage. Just4Exam **BI0-210 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: BI0-210

Exam Name: IBM Cognos 8 BI Professional(COGNOS Certification)

Questions and Answers: 68 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the BI0-210 Exam.

BI0-210 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the COGNOS Certification product experts, included the current newest BI0-210 examination questions.

3. 100% Guarantee to Pass Your COGNOS Certification exam and get your COGNOS Certification Certification.

All will purchase "BI0-210 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the COGNOS Certification BI0-210 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of BI0-210 Q&A are more than 96%. All you need to study the whole BI0-210 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our BI0-210 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of BI0-210 Q&A, absolutely guarantee you interests have no losses. (For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the BI0-210 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[COGNOS BI0-210](#) Test belongs to one of the COGNOS Certification certified test, if needs to obtain the COGNOS Certification certificate, you also need to participate in other related test, the details you may visit the [COGNOS Certification](#) certified topic, in there, you will see all related COGNOS Certification certified subject of examination.

BI0-210

Just4Exam professional provide COGNOS Certification BI0-210 the newest Q&A, completely covers BI0-210 test original topic. With our complete COGNOS Certification resources, you will minimize your COGNOS Certification cost and be ready to pass your BI0-210 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about BI0-210 exam

BI0-210 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

BI0-210 exam questions updated on regular basis

Same type as the certification exams, BI0-210 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free BI0-210 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : COGNOS BI0-210

Title : IBM Cognos 8 BI Professional

1. Which of the following is a significant cause of failure when using the technology-focused approach to BI Application development?

- A. Users often have difficulty understanding new technology.
- B. New technology often contains internal flaws and errors that affect the delivered solution.
- C. The solution is focused on a single subject area.
- D. Developers often focus on just the data.

Answer: D

2. When examining an operational (transactional) database, which of the following is considered a good indicator as to which tables contain fact data?

- A. Tables with the fewest number of columns
- B. Tables with the greatest number of rows
- C. Tables with the greatest number of foreign keys
- D. Tables with the fewest number of foreign keys

Answer: B

3. Which of the following issues is Iterative Development specifically designed to address?

- A. The very act of developing a system or solution will change the business requirements.
- B. Users understand their business processes but they don't usually understand application development.
- C. No developed solution will satisfy all users equally.
- D. Users often feel that IT does not understand the business.

Answer: A

4. Which of the following is a key difference between MDX and SQL?

- A. MDX is used for dimensional style reporting while SQL is incapable of dimensional style reporting.
- B. MDX has built in functions to support relative date calculations while SQL cannot perform relative date calculations.
- C. Dimensionally Modeled Relational (DMR) retrieves data using MDX, not SQL.
- D. MDX can reference metadata that SQL cannot.

Answer: D

5. Which of the following describes Key Performance Indicators (KPI)?

- A. Specific metrics, usually derived, by which a company measures its progress and success.
- B. Strategic goals, typically specified by executives, which describe the direction and objectives of the organization.
- C. Industry standards by which organizations measure themselves against others in their market space.
- D. Core, atomic level data items that provide input into higher level derived items which then appear on scorecards.

Answer: A

6. Which of the following describes the models contained in the '24 Ways' book referenced in the BI Professional Workshop course?

- A. Framework Manager models that map over an example normalized database, which one might find in a manufacturing enterprise.
- B. Physical, star schema data models for constructing data marts for the various departments in a generic business enterprise.
- C. Logical models that contain dimensions and key tactical metrics for the various departments in a generic business enterprise.
- D. Cognos 8 OLAP Modeler (Transformer) models that describe how to map data from a manufacturing database into a PowerCube.

Answer: C

7. Which of the following statements is true about the Waterfall Approach?

- A. The five steps in the process are considered valid for BI software development projects.
- B. Each step is performed in sequence but you return to previous steps at specific points in the development cycle.
- C. It is designed so that requirements that are not discovered in the Analysis step will cascade out during the design phase.
- D. Project management tools no longer encourage the Waterfall Approach.

Answer: A

8. When comparing two differently grained facts directly against one another, the developer must:

- A. either write a union query or two reports that roll both facts up to a common level
- B. either roll up the lower grained fact to the higher level or allocate the higher grained fact to the lower level
- C. declare determinants at multiple levels in the dimensions of a DMR Framework Manager model
- D. ensure that all conformed dimensions shared by the facts have the same number of levels

Answer: B

9. How are Key Performance Indicators (KPIs) tracked?

- A. By aligning them to strategic and tactical goals and the business objectives of the enterprise.
- B. By comparing them against other KPIs in a balanced scorecard.
- C. By examining anomalies that appear in BI reporting and analysis.
- D. By comparing their values to acceptable minimum and maximum levels of performance against a target.

Answer: D

10. Which of the following is true regarding hierarchies and dimensions? A. Hierarchies help users understand the data through rollup levels within dimensions.
B. All dimensions must have hierarchies.
C. All hierarchies are defined by the inherent nature of their dimensional data.
D. It is considered poor design to split a hierarchy across multiple dimensions.

Answer: A

11. Which of the following MOST clearly states the value of using a methodology?
A. It provides a philosophy of development that maximizes return on investment.
B. It helps consultants progress in a systematic way to insure all critical steps are addressed.
C. It helps project managers estimate the cost and effort in developing a solution.
D. It ensures that early mistakes are avoided in developing a solution.

Answer: B

12. If you are successful with this exam, do you agree to have your name made available to relevant IBM personnel for project staffing?

- A. Yes
B. No

Answer: A

13. Which of the following BEST describes the relationship or differences between Iterative Approach and Cognos SIM?

- A. The Iterative Approach is a specific technique used to iterate through the Design phase.
B. The Iterative Approach is a series of steps defined in the Analysis and Development phases of Cognos SIM.
C. The Iterative Approach is a philosophy of development while Cognos SIM is a collection of tasks, documents, and techniques to guide development.
D. Cognos SIM is the current Cognos development standard and is intended to replace the Iterative Approach for development of BI applications.

Answer: C

14. Are you an:

- A. IBM Customer
B. IBM Partner
C. IBM Employee

Answer: A

15. Which of the following statements best describes the Iterative Approach of application development?

- A. A prototype solution is developed after the initial user interviews. This prototype is then used as a basis for refining specific design requirements.
B. The design step is repeated multiple times before proceeding to the development step. Each pass through the design step further refines the eventual solution.
C. The solution is developed and delivered to the users. After approximately 2 weeks, the users are interviewed for any missing requirements and any new requirements form the basis for the next iteration.
D. A prototype is created that addresses 80 to 90% of the business requirements. This is demonstrated to the users and their feedback is used to refine the prototype in subsequent iterations.

Answer: D
