

DP-021W Veritas Certification

Veritas Design of Data Protection Solutions for Windows using NetBackup 5.0

DP-021W: Design of Data Protection Solutions for Windows using NetBackup 5.0

Practice Exam: DP-021W Exams

Exam Number/Code: DP-021W

Exam Name: Design of Data Protection Solutions for Windows using NetBackup 5.0

Questions and Answers: 80 Q&As

([Veritas Certification](#))

Exam : [DP-021W](#)

Veritas Certification [DP-021W](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and Veritas Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Veritas Veritas Certification DP-021W** examination of original title complete coverage. Just4Exam **DP-021W Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: DP-021W

Exam Name: Design of Data Protection Solutions for Windows using NetBackup 5.0(Veritas Certification)

Questions and Answers: 80 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the DP-021W Exam.

DP-021W simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Veritas Certification product experts, included the current newest DP-021W examination questions.

3. 100% Guarantee to Pass Your Veritas Certification exam and get your Veritas Certification Certification.

All will purchase "DP-021W Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the Veritas Certification DP-021W tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of DP-021W Q&A are more than 96%. All you need to study the whole DP-021W Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our DP-021W Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of DP-021W Q&A, absolutely guarantee you

interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the DP-021W Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Veritas DP-021W](#) Test belongs to one of the Veritas Certification certified test, if needs to obtain the Veritas Certification certificate, you also need to participate in other related test, the details you may visit the [Veritas Certification](#) certified topic, in there, you will see all related Veritas Certification certified subject of examination.

DP-021W

Just4Exam professional provide Veritas Certification DP-021W the newest Q&A, completely covers DP-021W test original topic. With our complete Veritas Certification resources, you will minimize your Veritas Certification cost and be ready to pass your DP-021W tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about DP-021W exam

DP-021W exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

DP-021W exam questions updated on regular basis

Same type as the certification exams, DP-021W exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free DP-021W exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Veritas DP-021W

Title : Design of Data Protection Solutions for Windows using NetBackup 5.0

1. You are in the process of disaster recovery planning. Your focus is on the recovery of IT systems. In your evaluation of the environment you must collect data regarding the physical locations.

Which list contains the main categories of disasters?

A. logical (hardware-related)

logical (software-related)

environmental

B. management failures

Logical (software-related)

environmental

C. SPDFA

logical(software-related)

environmental(software-related)

D. hardware failure

logical(software-related)

environmental

Answer: D

2. There is a large Oracle server that generally takes four hours to fully backup and two hours to perform an incremental backup. Full backups run on Friday night, and incremental backups run every other night. There is a new SLA requiring the backup of this server be completely by 7:00a.m. Monday through Friday.

How do you ensure that backups are completely by this time?

- A. set the incremental backup schedule so that the backup window closes at 7:00a.m
- B. set the incremental backup schedule so that the backup window closes at 5:00a.m
- C. set the full backup schedule so that the backup window closes at 7:00a.m
- D. set all backup schedules so that the backup window closes at 6:30a.m

Answer: B

3. Recovery Time Objectives address which element?

- A. Databases must be recovered to the last fully committed transition.
- B. Cold database backups must be performed every day.
- C. The data in different applications may have different recovery requirements
- D. Flat file and database are to be treated the same in terms of importance.

Answer: C

4. You are designing a data protection solution that has a recovery time objective (RTO) of approximately 15 minutes after complete data loss for a database that contains approximately 1 TB of data. Which two VERITAS products and/or options best fits this RTO requirement? (Choose two)

- A. NetBackup 5.0 Enterprise Server with Vault
- B. Volume Replicator
- C. NetBackup 5.0 Enterprise Server
- D. Volume Manager with FlashSnap

Answer: B,D

5. Your NetBackup environment will consist of two media servers (Server A and Server B) and a robot with four tape drives. Each media server also functions as a large files server on the network.

Which design best uses the available hardware?

- A. configures Server A as the robot control host, configure the four drives on ServerB
- B. configure Server A as the robot control host, configure two drives on each media server
- C. configures both media servers as the robot control hosts, configure the four drives on ServerA
- D. configure both media servers as the robot control hosts, configure two drives on each media server

Answer: B

6. You are encountering problems with host names and network connections. You have already verified that the correct client and server host names are configured in NetBackup.

Which commands do you use to verify name resolution on UNIX and Windows clients?

- A. bpexpdate
- B. bpclntcmd
- C. bptest
- D. bpverify

Answer: B

7. You have 100 backup clients with a total of 1,000 files on each client and 50GB in the once-monthly full backup. What would happen to the size of the NetBackup catalog if you have 100 backup clients with a total 1,000 files on each client and 100GB in the full backup?

- A. The NBU catalog does not change in size
- B. The NBU catalog size is one-fourth the size
- C. The NBU catalog is half the size
- D. The NBU catalog doubles in size

Answer: A

8. Which two factors contribute to determining backup window compliance of a tape backup solution? (Choose two)

- A. master server catalog capacity
- B. tape library slot capacity
- C. media server data receive rate
- D. backup client data send rate

Answer: C D

9. Your environment uses a SAN for disk access.

Which feature of NetBackup 5.0 Advanced Client is appropriate?

- A. fast backups
- B. off-host backups
- C. referential backups
- D. incremental backups

Answer: B

10. You are determining the scope of a data protection solution. You have already analyzed preferences and deadlines.

Which two other items must be analyzed before you can provide a solution? (choose two).

- A. information in the SLA
- B. network infrastructure
- C. number of employees
- D. number of tapes purchased

Answer: A,B

11. You have an environment with 1 TB of data. The weekly backup consists of one full backup and four differential incremental backups with a 15% change rate. You are also duplicating weekly full backups to be taken offsite. You are using tape drives that can store 100GB per tape.

Assuming that compression is not used, approximately how many tapes can you expect to use in four weeks?

- A. 81-90
- B. 91-100
- C. 101-110
- D. 111-120
- E. 121-130

Answer: C

12. When determining the required backup performance of a Data Protection design, which three items should be determined? (choose three)

- A. media server backup performance
- B. network and SAN data rates
- C. capacity of tape media
- D. client backup windows

Answer: ABD

13. Your current environment consists of one master server, four media servers and five hundred clients. Your company has planned to add an additional datacenter with the capacity of housing an additional 1,000 clients.

Which three things are considered when planning the expansion of your backup environment? (choose three)

- A. the operating system version of clients
- B. SAN infrastructure available
- C. cooling capacity of new datacenter
- D. network connectivity between the datacenters

Answer: A,B,D

14. You must design a data protection solution for a large number of Windows 2003 servers configured as NetBackup clients. Security is a high priority.

Which two items must be protected in order to preserve security configurations in the event of a disaster? (Choose two)

- A. Active Directory
- B. DHCP servers
- C. routing servers
- D. certificate servers

Answer: A,D

15. A new Storage Unit Group named STU_GROUP1 has been created. STU_GROUP1 contains the following storage units: STU1, STU2 and STU3 in the order listed. Each individual storage unit is configured for a different media server.

How can storage unit failover within the group be tested?

- A. disable NetBackup Media Manager Services for STU1, STU2 and STU3 and run a test backup that uses STU_GROUP1
- B. disable NetBackup Media Manager Services only for STU1 and run a test backup that uses STU_GROUP1
- C. disable NetBackup Media Manager Services only for STU2 and run a test backup that uses STU_GROUP1
- D. disable NetBackup Media Manager Services only for STU3 and run a test backup that uses STU_GROUP1

Answer: B

16. You need to use NetBackup 0 to back up servers that have a wide range of requirements defining which directories and files need to be backed up and which do not. Also, you want to minimize the number of NetBackup policies required to support these servers.

What can you modify to accomplish this?

- A. Clients with varying drive letters must be in different policies
- B. the global exclude list on the Master Server
- C. the "CLIENT_EXCLUDE" directive in the policy file list
- D. include and exclude lists on the clients

Answer: D

17. The number and throughput of network interfaces and host bus adapters are available for a media server.

Assuming that sufficient networks bandwidth exists, which two additional items of information are necessary to determine the backup rate of the media server? (Choose two)

- A. number of tapes available in the tape library
- B. number of tape drives per HBA
- C. tape drive throughput
- D. tape drive position in the tape library

Answer: B,C

18. Your NetBackup environment will consist of four media servers and a robot with two tape drives. The media servers and the robot are SAN attaches. Each media servers also functions as a large file server on the network.

Which three goals will be addressed by implementing the Shared Storage Option in this environment? (Choose three)

- A. minimized network traffic during the backup window
- B. high performance on the four local media server backups
- C. high performance on remote(network) client backups
- D. improved tape drive usage among media servers.
- E. improved performance data collection for backups

Answer: A,B,D

19. You have already designed a proposed solution for a department's data protection requirement. Now you want to validate the design with the department Which change in the department's environment affects your design the most?

- A. increased server memory capacity
- B. upgrades the Master Server

- C. increased distance between clients and servers
- D. a dedicated backup network

Answer: D

20. You have analyzed the current configuration of a data protection environment. You now need to determine your expectations for future growth.

Which type of analysis do you perform?

- A. Gap Analysis
- B. Storage Checkpoint analysis
- C. GANTT chart analysis
- D. PERT chart analysis

Answer: A
