

E20-501 EMC Certification

EMC Commercial Storage & Info Infrastructure Exam for Tech Archs

E20-501: Commercial Storage & Info Infrastructure Exam for Tech Archs

Practice Exam: E20-501 Exams

Exam Number/Code: E20-501

Exam Name: Commercial Storage & Info Infrastructure Exam for Tech Archs

Questions and Answers: 265 Q&As

([EMC Certification](#))

EMC Certification [E20-501](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and EMC Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title. Exam : [E20-501](#)

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC EMC Certification E20-501** examination of original title complete coverage.Just4Exam **E20-501 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: E20-501

Exam Name: Commercial Storage & Info Infrastructure Exam for Tech Archs(EMC Certification)

Questions and Answers: 265 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the E20-501 Exam.

E20-501 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the EMC Certification product experts, included the current newest E20-501 examination questions.

3. 100% Guarantee to Pass Your EMC Certification exam and get your EMC Certification Certification.

All will purchase "E20-501 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate.Just4Exam helps you one time pass the EMC Certification E20-501 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of E20-501 Q&A are more than 96%.All you need to study the whole E20-501 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our E20-501 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of E20-501 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the E20-501 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[EMC E20-501](#) Test belongs to one of the EMC Certification certified test, if needs to obtain the EMC Certification certificate, you also need to participate in other related test, the details you may visit the [EMC Certification](#) certified topic, in there, you will see all related EMC Certification certified subject of examination.

E20-501

Just4Exam professional provide EMC Certification E20-501 the newest Q&A, completely covers E20-501 test original topic. With our complete EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your E20-501 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about E20-501 exam

E20-501 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

E20-501 exam questions updated on regular basis

Same type as the certification exams, E20-501 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free E20-501 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E20-501

Title : Commercial Storage & Info Infrastructure Exam for Tech Archs

1. Which Replication Manager user role has the rights to restore replicas?

- A. Database Administrator
- B. Operator
- C. Power Administrator
- D. Power User

Answer: A

2. Your customer has been using a CLARiiON CX4 array for several months in their Windows environment and has asked you to help them design a data replication solution to their offsite facility approximately 250 km away. Their current network infrastructure can only provide them the equivalent of a T1 connection to the second facility, and they are asking for an RPO of no more than 20 minutes. They need to replicate roughly 1.75 TB of data with a change rate of less than 10%.

The solution must scale easily and quickly to accommodate anticipated future growth, but provide them the lowest possible entry point to meet the current requirements.

Which replication solution would you suggest?

- A. MirrorView/A
- B. RecoverPoint CRR

C. RecoverPoint/SE CRR

D. SAN Copy

Answer: C

3. How does SAN Copy, running on a CLARiiON system, identify other storage systems?

A. Domain ID

B. FCID

C. MAC address

D. World Wide Names

Answer: D

4. A customer wants to have automated failover during a Windows server outage, so that if the customer experiences a server outage, the recovery process will begin without human intervention.

Which EMC solution meets the customer requirement?

A. Celerra Replicator

B. NetWorker

C. RecoverPoint

D. RepliStor

Answer: D

5. A corporation recently acquired a secondary data center that is approximately 1,600 km from their primary data center location. The storage environment at the primary site consists of the following:

Windows and UNIX servers

CLARiiON storage system

10 TB of data to be replicated

T3 data link and 15-minute RPO

You are proposing a CLARiiON storage system for the secondary data center. Which EMC replication solution should you propose?

A. MirrorView/A

B. MirrorView/S

C. RecoverPoint CRR

D. RecoverPoint/SE

Answer: C

6. Your customer has been using a CLARiiON CX4 array for several months and has asked you to help them design a data replication solution to their offsite facility approximately 250 km away. Their current network infrastructure can only provide them the equivalent of a T1 connection to the second facility, and they are asking for an RPO of no more than 20 minutes. They need to replicate roughly 1.75 TB of data with a change rate of less than 10%.

The solution must interoperate with Windows and Linux hosts, and maximize the limited bandwidth available to the customer today.

What replication solution would you suggest?

A. MirrorView/A

B. RecoverPoint CDP

C. RecoverPoint/SE CRR

D. SAN Copy

Answer: C

7. A customer needs a disaster recovery solution for their Exchange environment. They currently have one site running Exchange within a SAN using CX3-80 storage, and the other smaller Exchange site using DAS. They want to implement a remote recovery solution for Exchange.

What solution will you recommend?

A. Replication Manager

B. RepliStor

C. SAN Copy

D. SnapView

Answer: B

8. Which EMC backup and recovery solution replicates individual open and closed files, directories, and shares?

A. Avamar

B. DiskXtender

C. EMC Legato

D. RepliStor

Answer: D

9. A customer has a production Microsoft SQL 2005 database server in an active-passive cluster attached to a CX3-20c with SnapView. They will be implementing a data warehouse on another SQL 2005 database server in a separate active-passive cluster also attached to the same CX3-20c for reporting and analytics.

Which product will automate the process of creating and promoting application consistent database replicas from the production server to the data warehouse server?

A. MirrorView/A

B. Navisphere

C. Replication Manager

D. VDI

Answer: C

10. A customer wants to automate the setup and management of multiple replicas of the production database on the DMX-3 so developers can create and delete at will for aggressive application development lifecycles.

Which solution would you recommend?

A. RecoverPoint CRR

B. Replication Manager

C. RepliStor

D. SAN Copy

Answer: B

11. You have a customer with a remote facility containing only three Windows servers. They recently had their backup tapes fail, and they would like to implement a solution that removes tape from the remote facility, minimizes bandwidth utilization, and keeps the data secure when traveling across the network. If possible, they would like to use existing Windows servers in their data center to replicate the data to.

Which solution meets these requirements?

A. AutoStart

B. Avamar

C. Disk Library

D. RepliStor

Answer: D

12. Your customer has a mission-critical Oracle database on open systems and CLARiiON that needs an improved method of local replication. The customer wants to reduce as much as possible the amount of time between the each local replica, but is concerned about the disk space needed to maintain all the replicas. They estimate that they want to support about a week of replicas, but worry about the management needed to determine the correct replica to mount.

Which product provides the simplest way to meet this requirement?

A. RecoverPoint CDP

B. RepliStor

C. SAN Copy

D. SnapView

Answer: A

13. How would you describe Replication Manager's chief customer benefit?

- A. Allow the ability to have AS400 and mainframe hosts share the same BCV disk pool.
- B. Automate the creation and management of replicas.
- C. Enable consistent splits between multiple DMX-3 arrays.
- D. Provide a simple GUI that allows backup applications to restore to disk.

Answer: B

14. Your customer is currently using RepliStor at their main data center. They would also like to use it to copy data from their remote offices to the main data center. Their main concern is data security when copying from the remote offices.

What are the security features of RepliStor that would meet the customer's data security need?

- A. Connection, Digital Signature, Encryption
- B. Digital Signature, Encryption, Data Verification
- C. Encryption, Compression, Redundancy
- D. Encryption, PKI, Masking

Answer: A

15. XYZ Corporation has recently acquired a secondary data center that is approximately 800 km from its primary data center location. The storage environment at the primary site consists of the following:

Windows servers only

CLARiiON storage system

3 TB of data to be replicated

XYZ will purchase a CLARiiON system for the secondary data center, and they are looking for a scalable and cost-effective replication solution. Which EMC replication solution should you propose in this case?

- A. MirrorView/A
- B. MirrorView/S
- C. RecoverPoint CRR
- D. RecoverPoint/SE

Answer: D

16. Which EMC backup and recovery solution features out-of-the box integration with Microsoft Volume Shadow Copy Service (VSS)?

- A. Avamar
- B. DiskXtender
- C. NetWorker
- D. RepliStor

Answer: D

17. Which RecoverPoint feature provides local synchronous replication between LUNs that reside in one or more arrays at the same site?

- A. CDP
- B. CRR
- C. RPA
- D. RPSD

Answer: A

18. A customer has an existing production CX3-80 at their primary site and a CX3-20 at a remote site 2,000 km away. They have three dedicated DS3 and four T1 connections. They need to replicate their critical databases from the primary site to the remote site. The total size of the databases is over 5 TB. They are interested in a SAN-based method to move that much data. Their requirement is a RPO of seconds to minutes.

They are currently negotiating a new WAN contract and are looking to reduce WAN bandwidth requirements. Which EMC solution do you recommend?

- A. RecoverPoint CRR

- B. RecoverPoint/SE
- C. RepliStor
- D. SAN Copy

Answer: A

19. Which protocol is used to connect the RecoverPoint Appliance and the storage array?

- A. FCOE
- B. Fibre
- C. IP
- D. iSCSI

Answer: B

20. A customer backs up their Windows servers to tape. They would like to complement these backups with the ability to provide disaster recovery protection in between backups, allowing only minutes of data loss as well as the ability to recover within minutes or hours.

Which solution fits this requirement?

- A. Avamar
- B. Backup Advisor
- C. Replication Manager
- D. RepliStor

Answer: D
