

## **E22-201 EMC Certification EMC Mainframe Local Replication Exam**

### **E22-201: Mainframe Local Replication Exam**

**Practice Exam:** E22-201 Exams

**Exam Number/Code:** E22-201

**Exam Name:** Mainframe Local Replication Exam

**Questions and Answers:** 166 Q&As

( [EMC Certification](#) )

EMC Certification [E22-201](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and EMC Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title. Exam : [E22-201](#)

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC EMC Certification E22-201** examination of original title complete coverage.Just4Exam **E22-201 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

### **VUE/Prometric Code: E22-201**

Exam Name: Mainframe Local Replication Exam( EMC Certification )

Questions and Answers: 166 Q&A

### **Just4Exam provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the E22-201 Exam.

E22-201 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the EMC Certification product experts, included the current newest E22-201 examination questions.

3. 100% Guarantee to Pass Your EMC Certification exam and get your EMC Certification Certification.

All will purchase "E22-201 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate.Just4Exam helps you one time pass the EMC Certification E22-201 tests.

### **We promised that use Just4Exam Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of E22-201 Q&A are more than 96%.All you need to study the whole E22-201 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our E22-201 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of E22-201 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the E22-201 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

**[EMC E22-201](#)** Test belongs to one of the EMC Certification certified test, if needs to obtain the EMC Certification certificate, you also need to participate in other related test, the details you may visit the [EMC Certification](#) certified topic, in there, you will see all related EMC Certification certified subject of examination.

E22-201

Just4Exam professional provide EMC Certification E22-201 the newest Q&A, completely covers E22-201 test original topic. With our complete EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your E22-201 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Exam Engine Features**

Comprehensive questions and answers about E22-201 exam

E22-201 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

E22-201 exam questions updated on regular basis

Same type as the certification exams, E22-201 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free E22-201 exam demo before you decide to buy it in Just4Exam.com

### **Just4Exam Help You Pass Any IT Exam**

**[Just4Exam.com](#)** offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E22-201

Title : Emc Mainframe Local Replication Exam

1. Which statement describes the TimeFinder Restore operation between a Standard and BCV device pair?

- A. Write-disable the Standard device and copy the entire contents of the BCV to the Standard device.
- B. Change the status of the BCV to Not Ready and copy the contents of the BCV to the Standard device.
- C. Change the status of both the BCV and the Standard device to Not Ready until synchronization is complete.
- D. Copy the entire contents of the Standard device to the BCV while presenting a Read-Write Enabled status for both the Standard device and the BCV.

Answer: B

2. You have just copied an SAP DB2 database to an IBM DS8000. You want to use this data for testing on your LPAR. Which product will get your data up and ready fastest?

- A. IDCAMS
- B. TimeFinder/Utility
- C. IBM Storage Utility
- D. TimeFinder/Reclaim

Answer: B

3. What is the difference between BCV operations with R1 devices and BCV operations with standard devices?

- A. None
- B. Concurrent SRDF is required for BCV and R1 operations
- C. The links must be suspended for BCV and R1 operations
- D. R1 and R2 devices must be synchronized for BCV and R1 operations

Answer: A

4. Which [3] options are valid for TimeFinder/Snap restore?

- A. VDEV can be restored to a equal size BCV
- B. VDEV can be restored to another equal sized VDEV
- C. VDEV can be restored to a different standard of unequal size
- D. VDEV can be restored to a equal size, different standard device
- E. VDEV can be restored to the original standard device from which it was created

Answer: ADE

5. Which RAID protection scheme is described by the following statement:

Data blocks are striped horizontally across the members of a RAID group; each member owns some data tracks and some parity tracks?

- A. RAID 1
- B. RAID 5
- C. RAID S
- D. RAID 10

Answer: B

6. Which RAID protection scheme calculates the parity protection at the disk level?

- A. RAID 0
- B. RAID 1
- C. RAID 5
- D. RAID 10

Answer: C

7. You attempted a restore to a remote R2 device and it failed.

What could cause this?

- A. R1 > R2 IS SET in the configuration
- B. R1SYNC(Y) is set in the configuration
- C. R1SYNC(N) is set in the configuration
- D. R2 RESTORE = N is set in the configuration

Answer: B

8. Click the Exhibit button.

<Missing>

Which RAID protection scheme is illustrated in the attached exhibit?

- A. RAID 10
- B. Parity RAID
- C. RAID 5 (3 + 1)
- D. RAID 5 (7 + 1)

Answer: A

9. Which answer best describes the functionality of TimeFinder/Mirror in a mainframe environment?

- A. SYMCLI management and automation
- B. Source and BCV are independent copies
- C. Processing against both source and pointer-based image creates performance overhead
- D. Requires a fraction of the capacity of the source volume; amount depends on how much data changes

Answer: B

10. You have a Symmetrix with a standard RAID 1 volume. The standard volume has a protected BCV established. The physical disk that contains the M1 data of the standard volume fails.

What is the result?

- A. The spare does not invoke
- B. The BCV becomes the dynamic spare
- C. The dynamic spare invokes and copies the data
- D. The dynamic spare replaces one of the BCVs and that BCV takes the role of failed drive

Answer: A

11. How would you describe a mirror position within a Symmetrix?

- A. Logical placement of "replicas"
- B. Quantity of copies of data in a Symmetrix
- C. Data structures that point to a physical location
- D. Where the source and target are placed in relation to each other

Answer: C

12. Which controller type has to be defined if PAVs are required?

- A. 2105
- B. 3390-3
- C. 3990-3
- D. 3990-6

Answer: A

13. You need a remote replication solution for your mainframe application running on a single Symmetrix DMX. The service level for the application specifies the following in order of priority:

Which solution best meets these requirements?

- A. SRDF/S - Synchronous mode
- B. SRDF/A - Asynchronous mode
- C. SRDF/CG - Synchronous mode with Consistency Group
- D. SRDF/A - Asynchronous mode with Multi-session Consistency

Answer: C

14. Which two [2] parameters are required to do a differential dataset SNAP?

- A. Copy(yes)
- B. Write(yes)
- C. Reuse(yes)
- D. Replace(yes)

Answer: CD

15. Which command displays system serial number, SSID, and number of devices?

- A. DISPLAY GNS,ALL
- B. F DISPLAY DEV,SSID=xxxx
- C. F SCFname,CSC,REFRESH
- D. F SCFname,DEV,DISP,SUMMARY

Answer: D

16. Click the Exhibit button.

<Missing>

You established and split a TimeFinder/Mirror BCV of your production database for use as a backup database.

Then, you used TimeFinder/Snap to make a copy of the backup database for use as a testing database.

What is the performance impact on the backup database during the SNAP?

- A. No Impact
- B. Variable Impact

- C. Dependent on TimeFinder/Mirror write activity
- D. Dependent on production database write activity

Answer: A

17. Which statement is true when using TimeFinder/Utility?

- A. Supports catalog management, but not GDG
- B. Supports any vendor's hardware environment
- C. Supports all IBM access methods, excluding VSAM
- D. Does not allow use of volume data on same z/OS image

Answer: B

18. A Symmetrix has a RAID 1 standard volume. The volume has an established BCV and an active clone session. How many mirror positions are available?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

19. How many aliases are supported per base address with 5671 Engenuity?

- A. 15
- B. 16
- C. 31
- D. 32

Answer: A

20. What is the Symmetrix logical data flow when presenting data to a host?

- A. Hyper volume to host
- B. Hyper volume to channel director to host
- C. Hyper volume to channel director to enjuinity to host
- D. Hyper volume to cache to channel director to host

Answer: D
