

JN0-331 JNCIS

Juniper Networks SEC,Specialist(JNCIS-SEC)

JN0-331: SEC,Specialist(JNCIS-SEC)

Practice Exam: JN0-331 Exams

Exam Number/Code: JN0-331

Exam Name: SEC,Specialist(JNCIS-SEC)

Questions and Answers: 131 Q&As

([JNCIS](#))

Exam : [JN0-331](#)

JNCIS [JN0-331](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and JNCIS product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Juniper Networks JNCIS JN0-331** examination of original title complete coverage.Just4Exam **JN0-331 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: JN0-331

Exam Name: SEC,Specialist(JNCIS-SEC)(JNCIS)

Questions and Answers: 131 Q&A

Just4Exam provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the JN0-331 Exam.

JN0-331 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the JNCIS product experts, included the current newest JN0-331 examination questions.

3. 100% Guarantee to Pass Your JNCIS exam and get your JNCIS Certification.

All will purchase "JN0-331 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate.Just4Exam helps you one time pass the JNCIS JN0-331 tests.

We promised that use Just4Exam Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of JN0-331 Q&A are more than 96%.All you need to study the whole JN0-331 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our JN0-331 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of JN0-331 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the JN0-331 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Juniper Networks JN0-331](#) Test belongs to one of the JNCIS certified test, if needs to obtain the JNCIS certificate, you also need to participate in other related test, the details you may visit the [JNCIS](#) certified topic, in there, you will see all related JNCIS certified subject of examination.

JN0-331

Just4Exam professional provide JNCIS JN0-331 the newest Q&A, completely covers JN0-331 test original topic. With our complete JNCIS resources, you will minimize your JNCIS cost and be ready to pass your JN0-331 tests on Your First Try, 100% Money Back Guarantee included!

Just4Exam Engine Features

Comprehensive questions and answers about JN0-331 exam

JN0-331 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

JN0-331 exam questions updated on regular basis

Same type as the certification exams, JN0-331 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free JN0-331 exam demo before you decide to buy it in Just4Exam.com

Just4Exam Help You Pass Any IT Exam

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Juniper Networks JN0-331

Title : SEC,Specialist(JNCIS-SEC)

user@host# show

policy allowTransit {

match {

```
source-address PrivateHosts;
destination-address ExtServers;
application ExtApps;
}
then {
permit {
tunnel {
ipsec-vpn myTunnel;
}
}
}
scheduler-name now;
```

Based on the configuration shown in the exhibit, what are the actions of the security policy?

- A. The policy will always permit transit packets and use the IPsec VPN myTunnel.
- B. The policy will permit transit packets only on Monday, and use the IPsec VPN Mytunnel.
- C. The policy will permit transit packets and use the IPsec VPN myTunnel all day Monday and Wednesday 7am to 6pm, and Thursday 7am to 6pm.
- D. The policy will always permit transit packets, but will only use the IPsec VPN myTunnel all day Monday and Wednesday 7am to 6pm, and Thursday 7am to 6pm.

Answer: C

2. Which two statements are true regarding proxy ARP? (Choose two.)

- A. Proxy ARP is enabled by default.
- B. Proxy ARP is not enabled by default.
- C. JUNOS security devices can forward ARP requests to a remote device when proxy ARP is enabled.
- D. JUNOS security devices can reply to ARP requests intended for a remote device when proxy ARP is enabled.

Answer: BD

3. Which two statements describe the difference between JUNOS Software for security platforms and a traditional router? (Choose two.)

- A. JUNOS Software for security platforms supports NAT and PAT; a traditional router does not support NAT or PAT.
- B. JUNOS Software for security platforms secures traffic by default; a traditional router does not secure traffic by default.
- C. JUNOS Software for security platforms allows for session-based forwarding; a traditional router uses packet-based forwarding.
- D. JUNOS Software for security platforms separates broadcast domains; a traditional router does not separate broadcast domains.

Answer: BC

4. Which three functions are provided by JUNOS Software for security platforms? (Choose three.)

- A. VPN establishment
- B. stateful ARP lookups
- C. Dynamic ARP inspection
- D. Network Address Translation
- E. inspection of packets at higher levels (Layer 4 and above)

Answer: ADE

[edit groups]

```
user@host# show
```

```
node0 {
system {
host-name NODE0;
```

```

}
interfaces {
fxp0 {
unit 0 {
family inet {
address 1.1.1.1/24;
}
}
}
}
node1 {
system {
host-name NODE1;
}
interfaces {
fxp0 {
unit 0 {
family inet {
address 1.1.1.2/24;
}
}
}
}
}

```

In the exhibit, what is the function of the configuration statements?

- A. This section is where you define all chassis clustering configuration.
- B. This configuration is required for members of a chassis cluster to talk to each other.
- C. You can apply this configuration in the chassis cluster to make configuration easier.
- D. This section is where unique node configuration is applied.

Answer: D

6. For IKE phase 1 negotiations, when is aggressive mode typically used?

- A. when one of the tunnel peers has a dynamic IP address
- B. when one of the tunnel peers wants to force main mode to be used
- C. when fragmentation of the IKE packet is required between the two peers
- D. when one of the tunnel peers wants to specify a different phase 1 proposal

Answer: A

7. A traditional router is better suited than a firewall device for which function?

- A. VPN establishment
- B. packet-based forwarding
- C. stateful packet processing
- D. Network Address Translation

Answer: B

8. Regarding zone types, which statement is true?

- A. You cannot assign an interface to a functional zone.
- B. You can specify a functional zone in a security policy.
- C. Security zones must have a scheduler applied.
- D. You can use a security zone for traffic destined for the device itself.

Answer: D

9. Regarding attacks, which statement is correct?

- A. Both DoS and propagation attacks exploit and take control of all unprotected network devices.
- B. Propagation attacks focus on suspicious packet formation using the DoS SYN-ACK-ACK proxy flood.
- C. DoS attacks are directed at the network protection devices, while propagation attacks are directed at the servers.
- D. DoS attacks are exploits in nature, while propagation attacks use trust relationships to take control of the devices.

Answer: D

10. Which two statements describe the difference between JUNOS Software for security platforms and a traditional router? (Choose two.)

- A. JUNOS Software for security platforms supports NAT and PAT; a traditional router does not support NAT or PAT.
- B. JUNOS Software for security platforms does not forward traffic by default; a traditional router forwards traffic by default.
- C. JUNOS Software for security platforms uses session-based forwarding; a traditional router uses packet-based forwarding.
- D. JUNOS Software for security platforms performs route lookup for every packet; a traditional router performs route lookup only for the first packet.

Answer: BC
