

## tt0-101 CTP Certification

### Convergence Technologies Profession Convergence Technologies Professional

**tt0-101: Convergence Technologies Professional**

**Practice Exam:** tt0-101 Exams

**Exam Number/Code:** tt0-101

**Exam Name:** Convergence Technologies Professional

**Questions and Answers:** 130 Q&As

( [CTP Certification](#) )

Exam : [tt0-101](#)

CTP Certification [tt0-101](#) Braindumps Q&A are created by senior IT lecturers in Just4Exam certification Q&A network and CTP Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Convergence Technologies Profession CTP Certification tt0-101** examination of original title complete coverage. Just4Exam **tt0-101 Braindumps** Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: tt0-101**

Exam Name: Convergence Technologies Professional( CTP Certification )

Questions and Answers: 130 Q&A

#### **Just4Exam provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the tt0-101 Exam.

tt0-101 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the CTP Certification product experts, included the current newest tt0-101 examination questions.

3. 100% Guarantee to Pass Your CTP Certification exam and get your CTP Certification Certification.

All will purchase "tt0-101 Q&A" customers will obtain refund money after-sale commitments if do not pass the exam, And enjoy the upgrade Q&A service for free in one year. Ensure customers a pass rate. Just4Exam helps you one time pass the CTP Certification tt0-101 tests.

#### **We promised that use Just4Exam Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title, summarized by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A. The correctly of the Q&A is 100%, the coverage of tt0-101 Q&A are more than 96%. All you need to study the whole tt0-101 Q&A before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. Just4Exam to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our tt0-101 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of tt0-101 Q&A, absolutely guarantee you interests have no

losses.(For a full refund details)

3. Just4Exam professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the tt0-101 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Convergence Technologies Profession tt0-101](#) Test belongs to one of the CTP Certification certified test, if needs to obtain the CTP Certification certificate, you also need to participate in other related test, the details you may visit the [CTP Certification](#) certified topic, in there, you will see all related CTP Certification certified subject of examination.

tt0-101

Just4Exam professional provide CTP Certification tt0-101 the newest Q&A, completely covers tt0-101 test original topic. With our complete CTP Certification resources, you will minimize your CTP Certification cost and be ready to pass your tt0-101 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Exam Engine Features**

Comprehensive questions and answers about tt0-101 exam

tt0-101 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

tt0-101 exam questions updated on regular basis

Same type as the certification exams, tt0-101 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free tt0-101 exam demo before you decide to buy it in Just4Exam.com

### **Just4Exam Help You Pass Any IT Exam**

[Just4Exam.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Telecommunications

Industry Association

TT0-101

Title : convergence technologies professional

1. Users are reporting problems with voice delays on telephone calls on the corporate Voice over IP (VoIP) network.

Which of the following is a possible cause of this problem?

A. Large data packets are causing the voice packets to exceed their delay budget.

B. Echo cancellation has been enabled on the voice coders without configuring phase shifting.

C. The destination number is not contained in the local dial plan, forcing the gateway to do a recursive number lookup.

D. The voice codec is unable to properly compress the voice stream into packets because the sampling rate has been set too high.

Answer: A

2. Using a T1 circuit to connect a North American company to its European branch, a technician may choose an E1 carrier trunk. How many total and usable data and/or voice channels can be configured?

A. 23 channels

B. 24 channels

C. 30 channels

D. 32 channels

Answer: B

3. What is the function of a gatekeeper in a converged network?

A. Provides network connectivity for legacy systems

B. Provides admission control and address translation between endpoints

C. Manages calls between three or more endpoints to facilitate multipoint conferencing

D. Performs call setup and address translation between packet-switched and circuit-switched networks

Answer: B

4. Which standards body is responsible for publishing the Requests For Comments (RFCs) that establish TCP/IP specifications?

A. Internet Engineering Task Force (IETF)

B. International Telecommunication Union (ITU)

C. Institute of Electrical and Electronics Engineers (IEEE)

D. Internet Corporation for Assigned Names and Numbers (ICANN)

Answer: A

5. Which media protocol is commonly used for Voice over IP (VoIP) solutions?

A. IMP

B. RTMP

C. MGCP

D. ICMP

Answer: C

6. During the call setup phase, call setup information is transmitted as non ASCII-based digital information to a gatekeeper, while the media stream is transmitted directly from endpoint to endpoint. Which of the following protocols does this describe?

A. SIP

B. Q.931

C. H.323

D. H.320

Answer: C

7. Which is a variable delay component in packet-voice networks?

A. Routing-queuing delay

B. Bit-serialization delay

C. End-point processing delay

D. Encoding and compression delay

Answer: A

8. Which of the following International Telecommunication Union (ITU) recommendations defines the standard for store-and-forward fax transmission over IP networks?

A. T.37

B. S.47

C. V.235

D. Q.931

Answer: A

9. When a technician connects a North American T1 trunk to a European E1 trunk using a conversion device, which of the following will result?

A. No connection can be made between E1 and T1.

B. No more than 80 percent of the E1 trunk can be used.

- C. The connection will be transparent to the technician.
- D. No less than 80 percent of the T1 can be used or the connection will fail.

Answer: B

10. A customer is experiencing sporadic problems with clicking during conversations, poor quality on fax transmissions, and modems failing to connect. Which of the following is the most likely cause?

- A. The T1 clock reference is incorrect.
- B. The frame relay network is congested.
- C. The channels have been provisioned incorrectly.
- D. The D channel signaling information is incorrect.

Answer: A

11. Which of the following Quality of Service (QoS) techniques uses the precedence bits in the IP header?

- A. RSVP
- B. 802.1p
- C. IntServ
- D. DiffServ

Answer: D

12. Which of the following is an international standard for the electrical interface between Data Terminal Equipment (DTE) and Data Communications Equipment (DCE)?

- A. V.24
- B. DB25
- C. RJ-11
- D. 802.11b

Answer: A

13. A company has complained that its voice quality is poor and would like to switch the codec used by its on-premise Voice over IP (VoIP) gateway from G.723.1 to G.711. How will changing the customer's gateway to G.711 impact the overall bandwidth consumption?

- A. Has no effect on bandwidth consumption, but will increase latency
- B. Has no effect on bandwidth consumption, but will reduce jitter
- C. Decreases the bandwidth consumption of each call to 8 Kbps (plus any overhead)
- D. Increases the bandwidth consumption of each call to 64 Kbps (plus any overhead)

Answer: D

14. What is a function of a gateway in a converged network?

- A. Provides Quality of Service (QoS) to converged networks
- B. Provides admission translation and address control between IP endpoints
- C. Manages calls between three or more endpoints to facilitate multipoint conferencing
- D. Performs call setup and address translation between circuit-switched and packet-switched networks

Answer: D

15. Which result will occur if the Adaptive Differential Pulse Code Modulation (ADPCM) is reduced from 32 Kbps to 16 Kbps?

- A. Voice quality degrades as compression increases.
- B. Voice quality improves as compression increases.
- C. Voice quality degrades as compression decreases.
- D. Voice quality is unaffected by compression rates.

Answer: A

16. Which International Telecommunication Union (ITU) G Series standard defines PCM voice coding at 64 Kbps?

- A. G.711

- B. G.726
- C. G.728
- D. G.729

Answer: A

17. What is the function of Quality of Service (QoS) in packet-voice networks?

- A. Applies differential routing to voice packets
- B. Improves encoding performance for voice packets
- C. Reduces serialization and propagation delay to voice packets
- D. Increases the amount of available bandwidth of voice packets

Answer: A

18. Through troubleshooting, a technician determines that there is a degraded clocking source on a customer's wide area network (WAN). Which term would that troubleshooter use to describe this situation?

- A. Wander
- B. Jitter
- C. Latency
- D. Attenuation

Answer: A

19. Which of the following is a common characteristic of circuit-switched networks?

- A. A call uses multiple circuits, releasing them during periods of silence for maximum efficiency.
- B. A call has exclusive use of the entire circuit for the duration of the call but is inherently expensive.
- C. A call can be completed without the need for any signaling because it uses PSTN circuits instead of TCP/IP.
- D. A call has a very robust set of Quality of Service (QoS) options that allows it to overcome congestion and latency problems.

Answer: B

20. Which Quality of Service (QoS) technology is used by applications to signal QoS requirements to the network?

- A. DSCP
- B. RSVP
- C. 802.1P
- D. IP Precedence

Answer: B
